

INSTALLATION INSTRUCTIONS

DREAMSCREEN ULTRAHD V5

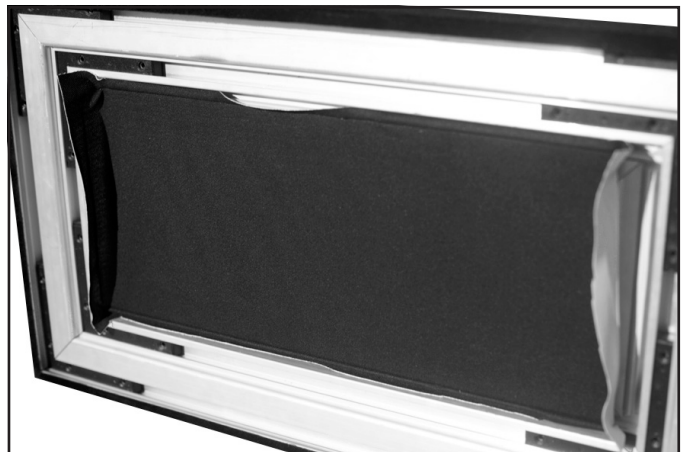

1. Cut the included attachment profiles to fit the four sections of the frame.

2. Insert the attachment modules into the prefitted section of the V5 frame. If used on a DIY-project, please use a strong glue to attach the modules.

3. Use a regular pizza-slicer to insert and fit the fabric into the attachment profiles.

4. First install the two long sides, then the short sides to provide a perfectly tensioned surface.
