Dear Sir/Madam,

Russia's invasion of Ukraine is causing suffering to millions of defenseless people. Many of them died, many are fighting with the invader and a very large group, mainly women and children, was forced to leave their homes in Ukraine, being able to take only the most necessary things with them or literally nothing.

The scale of the tragedy is difficult to imagine and it demands our unconditional help. From the first days of the conflict, Bolesławiec has been helping Ukraine by providing shelter and humanitarian aid to the most needy. Every day more and more people from territories torn by war come to our town. We are organizing help for them, trying to make them feel safe and cared for in Bolesławiec.

In order to continue helping refugees from Ukraine, the Bolesławiec City Hall has opened an account to which funds can be deposited to help refugees. The collected funds will be spent in full on providing, among other things, food, accommodation, clothing, medicines and hygiene articles.

In the face of the war, let us show support to those who desperately need our help. Donations can be made to the bank account created by the City Hall of Bolesławiec:
