DIRECTIONS FOR ASSEMBLY AND ADJUSTMENT

Control Throw Setting Suggestion

- Elevator
- Aileron
- Rudder

Leads with silicon rubber (red/black)

Propeller (12x6)

Center of Gravity (C.G.)

1 1/8" 20mm
1 1/8" 20mm

WARNINGs

- Never charge a LiPo battery with a charger designed for NiCd/NiMH or any other type of battery chemistry. Use only chargers designed for LiPo batteries.
- Do not immerse LiPo batteries into water or other liquids.
- Do not short-circuit the battery pack by connecting the bare wires together.
- Do not expose the battery to high temperatures for extended periods.
- Do not attempt to disassemble or repair the battery pack.
- Do not allow battery over-charge beyond the manufacturer's specifications.
- Do not store the battery in a为其 committed environment.
- Do not store the battery near sources of heat or fire.
- Do not use the battery in the presence of humidity or condensation.
- Do not use the battery in the presence of moisture or water.
- Do not short-circuit the battery during charging or discharging.
- Do not disassemble the battery pack or attempt to repair any battery pack.
- Do not dispose of the battery in the same manner as household waste.
- Do not attempt to open or modify the battery pack.
- Do not use the battery if it has been dropped or damaged.
- Do not use the battery if it emits an unusual odor or smoke.
- Always check the battery for signs of damage before use.
- Do not charge the battery beyond its specified voltage limits.
- Always replace the battery if it shows signs of deterioration.
- Always follow the manufacturer's guidelines for battery usage.

Change the LiPo battery pack

Disconnect the battery from the charger during the charging process completely. Do not charge the battery unloaded or unattended.

Lithium Polymer (LiPo) Battery Warnings

- Never charge a LiPo battery with a charger designed for NiCd/NiMH or any other type of battery chemistry. Use only chargers designed for LiPo batteries.
- Do not immerse LiPo batteries into water or other liquids.
- Do not short-circuit the battery pack by connecting the bare wires together.
- Do not expose the battery to high temperatures for extended periods.
- Do not attempt to disassemble or repair the battery pack.
- Do not allow battery over-charge beyond the manufacturer's specifications.
- Do not store the battery in a为其 committed environment.
- Do not store the battery near sources of heat or fire.
- Do not use the battery in the presence of humidity or condensation.
- Do not use the battery in the presence of moisture or water.
- Do not short-circuit the battery during charging or discharging.
- Do not disassemble the battery pack or attempt to repair any battery pack.
- Do not dispose of the battery in the same manner as household waste.
- Do not attempt to open or modify the battery pack.
- Do not short-circuit the battery during charging or discharging.
- Do not disassemble the battery pack or attempt to repair any battery pack.
- Do not dispose of the battery in the same manner as household waste.
- Do not attempt to open or modify the battery pack.
- Do not short-circuit the battery during charging or discharging.
- Do not disassemble the battery pack or attempt to repair any battery pack.

The product contains small parts and is not designed for children under 3 years of age. Please dispose of used batteries in accordance with local regulations.
