## **Forward Bin Tipper (Hydraulic) FBT-ST-1000**

Forward bin tippers handle a variety of products efficiently and safely. This unit has a fast but controlled hydraulic tipping action and its unique bin grab applies a firm grip on the bin when tipped. The bin has a 135-degree forward tip ensuring complete emptying of the bin. Being suitable for a wide range of cubic bin sizes and types, this robust attachment provides a quality, long life investment in any bin tipping application. The attachment can be modified to suit your specific bin type / size requirements.

**Specifications:**

- Safe Working Load: 1000 kg or 1500 kg.
- Total width across forks: 760 mm.
- Fits standard forklift forks up to 152 x 45 – 1070 mm.
