

Equipment Cleaning Kit

The Equipment Cleaning Kit contains all of the necessary materials to clean and neutralize battery acid build-up and residue from batteries and battery handling equipment. The ECK-4 is easy to transport and allows technicians to clean and neutralize equipment while on the go.

BHS provides custom battery handling equipment to meet any challenge.

Contact the BHS sales team at bhs@bhs1.com to learn more about fully customized solutions for the battery room and beyond.

Equipment Cleaning Kit

OVERVIEW

The BHS Equipment Cleaning Kit (ECK-4) gives technicians the necessary supplies to keep batteries and battery handling equipment free from acid buildup and residue. Regular maintenance and cleaning of battery handling equipment protects pumps, valves, wash nozzles, and other components that can be damaged by debris and particles.

The ECK-4 is easy to transport and comes with a 5.3 gallon flip-top pail that helps organize supplies. The apron, gloves, and goggles protect staff from harsh chemicals while the long-handle bristle brush and scrub brush with knuckle guard offer ergonomic features to make tasks easier on the body. AcidSafe Liquid spray neutralizes acids and changes colors to indicate a safe, neutral pH range.

CONTENTS

1	5.3 gal (20 L) flip-top pail
4	32 oz (946 mL) bottles of AcidSafe Liquid spray
2	Trigger sprayers
1	Chemical goggles
1	Nitrile glove pair
1	Disposable apron
1	Long handle bristle brush
1	Scrub brush with knuckle guard
1	Corrosion removal cleaning brush
1	3" (76 mm) plastic scraper
10	Disposable wipes
1	4' (1219 mm) universal chemical sock (not pictured)

FEATURES & BENEFITS

- Convenient reusable pail organizes all necessary supplies
- Color changing detergent indicates when acid residue is completely neutralized
- Ready-to-use solution eliminates the need for measuring and mixing
- Reusable spray nozzles attach directly to the solution bottle eliminating the need for a separate solution sprayer
- Apron, gloves, and goggles provide personal protection
- Minimize risk of acidic burns and damage to equipment

KEEP BATTERY HANDLING EQUIPMENT IN EXCELLENT SHAPE BY REMOVING BUILDUP AND RESIDUE WITH THE ECK-4.
