

Elliat Rich takes out Australian Furniture Design Award

The biannual Australian Furniture Design Award by JamFactory and Stylecraft has rolled around for the second time. Elliat Rich, an Alice Springs-based designer, was announced as the winner with her sculptural vanity design titled *Place*.

Inspired by Rich's movements across the interior of Australia, *Place* was applauded by the esteemed jury for an original design aesthetic that evokes a sense of feminine ritual. The jury also noted that her piece was poetic, strong, innovative and brave.

In addition to \$20,000 in prize money, Rich will undertake a residency in JamFactory's Furniture Studio to develop new work to a specific brief for commercial production and distribution through Stylecraft showrooms across Australia and Singapore.
