

# WRIST SIZER

To get the best results, you will need to go to the 'printing option' before printing and ensure that the 'page scaling' option is set to 'none' in the print dialogue box.

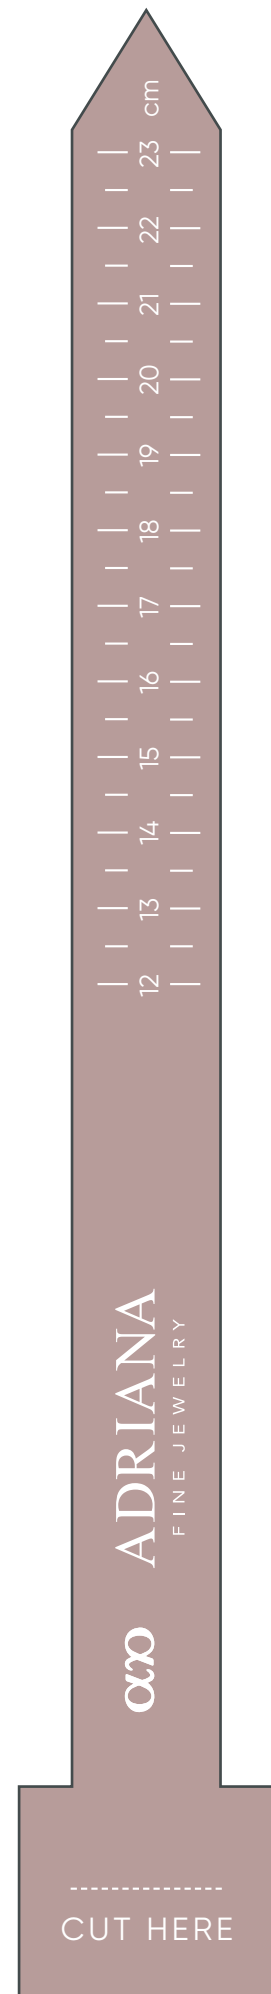

Adriana Fine Jewelry Wrist Sizer must be printed on a full letter (8 ½ x 11 inches) size page. To check that the Wrist Sizer has been printed properly, take a ruler and measure the sample below. It should measure exactly 2 cm.

Cut out the paper Wrist Sizer and follow the instructions below.

- Make sure that the numbers are on the outside of the paper and insert the pointed end through the opening you have cut at the other end of the Wrist Sizer where indicated [cut here]. Place your hand through the Wrist Sizer and pull the pointed end until it fits comfortably on your wrist.
- The number that lines up with the edges of the opening is the size of the wrist.
- You can also use a tape measure but if you do not have one, take any small piece of ribbon or cord. Wrap it around your wrist and measure the length against a ruler.

Wrist Measurement in Centimeters	Wrist Measurement in Inches
12cm	4.72"
13cm	5.11"
14cm	5.51"
15cm	5.9"
16cm	6.29"
17cm	6.69"
18cm	7.08"
19cm	7.48"
20cm	7.87"
21cm	8.26"
22cm	8.66"
23cm	9.05"

# BANGLE SIZING GUIDE

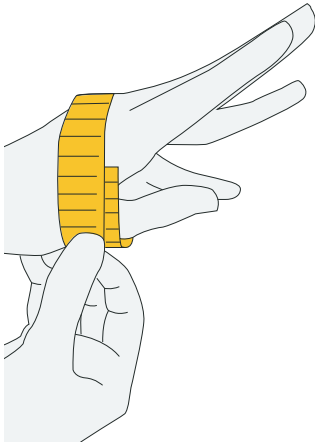

---

To determine your bangle size:

Use the wrist size or measuring tape.

Close your fingers together and bring your thumb to your little finger (as pictured). Pretend that you were putting on a bangle.

Wrap the size around your hand at the widest point.

You can also use a tape, ribbon or cord to wrap it around your wrist and measure the length against a ruler.

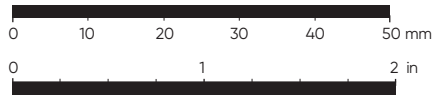

# RING SIZING GUIDE

---

Before printing this page, make certain changes to your print dialog box:

- Uncheck the "fit to page" option.
- Set the page scaling to "none" or set custom scaling to "100%". To confirm that the page is properly sized, measure the "2 in" and "50 mm" reference images with a ruler. If they do not match exactly, the ring size measurements will be inaccurate.

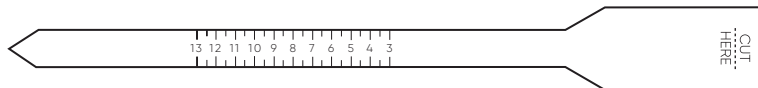

## CONFIRM PRINTED PAPER SIZE

Below are two options for ring sizing, choose the one that works best for you:

## OPTION 1: LINEAR RING SIZER

Before you cut this sizer, place a piece of clear tape over the entire image to provide strength and allow for a more precise measurement. Then, cut out the image. With a straight edge razor, carefully cut the indicated slot across the dotted line. Insert the end of the sizer into the slot, so that the numbers are on the outside of the circle. Place the sizer on the intended finger at the widest point and pull the tab through the slot until the sizer is snug. Make certain it can still slip over the knuckle of the finger. The number that lines up with the slit is your ring size.

# NECKLACE SIZING GUIDE

---

There are various necklace sizes for women. Choosing the right size can help you frame your face and alter the overall style of your outfit. If you're feeling ambitious, you can even stack different sizes together to create a completely new statement.

14" 35 cm

Fits most like a choker, wraps closely around the neck.

16" 40 cm

Falls perfectly around the base of the neck like a collar. On a petite woman it will hit her collarbone while for plus size women it might feel more like a choker.

18" 45 cm

A common choice for women that will fall just below the throat at the collarbone. This length is popular for adding pendants which will hang over a crew neck.

20" 50 cm

Will fall a few inches below the collarbone and allow a little more breathing room. Perfect for a low, plunging neckline or if you want to wear it over a turtleneck.

24" 60 cm

Falls below any neckline.

30" 75 cm

Worn below the bust line, or as a double strand.

36" 90 cm

Common with pearl strands and will hang below the bosom. They can be worn as a single strand or you can double them for an 18-inch necklace.
