## COMMISSIONS

Commissioned paintings are considered and accepted at the discretion of the Artist. Subjects in commissioned work will be interpreted by the Artist in her signature style — and the Artist reserves the creative right to depict the chosen subjects in her work as she sees fit. Commissioned paintings may require 2-4 months for completion. Your Sales Representative will work with you directly on the size, composition and subject of the work. Please contact your Sales Representative to discuss Artist availability and details.
