PERMA BLEND®

EYELINERS

EYELINER BLACK

CARBON

This is a cool, carbon based black eyeliner pigment. It is for experienced, professional artists and for those experienced with carbon colors. It is suitable for Fitzpatrick skintones 2-6.

BLENDED BLACK

CARBON + IRON OXIDE

This is a new iron oxide/carbon mix for that black eye liner with an added punch. It's perfect for artists that love iron oxide but want it to be a bit darker. It is suitable for Fitzpatrick skintones 1-6.

DOUBLE BLACK

DOUBLE CARBON

This is a cool, carbon based black eyeliner pigment that has double the carbon load of Eyeliner Black. It is for experienced, professional artists that experienced with carbon black. It is suitable for Fitzpatrick skintones 3-6.

BLACKISH BROWN

CARBON

This is a cool, dark brown eyebrow or eyeliner pigment. It has a touch of carbon black. It is suitable for Fitzpatrick skin tones 2-6.

BLACK BEAUTY

IRON OXIDE

This is a cool iron oxide based black. It can be used alone or as a base before Eyeliner Black or Double Black which are both carbon based. It is suitable for Fitzpatrick skin tones 1-6.

⚡ PRO TIP:

Add a few drops of Perma Blend Orange Crush as warm insurance to prevent cool results, especially on very cool, translucent skin tones.
