

Heavy Duty Secure Storage

Steel storage units that are durable and affordable.

Modular Containers

A heavy duty, secure, weatherproof container to store your valuables and more. Double front door design allows you to use the full width of the container. A single front door is also available. Complete flooring system included. Make it as deep as you want with extension kits. Unique roof design allows maximum interior storage space. A variety of different accessories are available, including a side door, single or double door for the rear, a pressure treated floor, shelving, gear hangers and entry ramp. Manufactured entirely with 18 ga. G90 galvanized steel. High security door bar locks and lever mechanisms that are designed to accept any standard lock. Heavy-duty hinges and tamper resistant hardware provide additional security. Ships unassembled on a platform that easily fits in a short box pickup truck.

Double modular shown
