our story

MEET THE MAKERS

Lit Up Candle Co. was founded in 2015 by two music lovers with a candle-making problem. What started as a dating couple's shared hobby and side gig brewed into a husband-and-wife's full-time business, and a mission to promote sustainability. We consciously craft the best-smelling home fragrance products with your complete experience in mind.

Breathe easy knowing our products are made with natural, organic, non-toxic ingredients that are better for you and your wellness.

Feel good knowing we source sustainable, renewable, eco-friendly materials grown and made locally in the USA, we use upcycled and recyclable containers, and our products are sustainably crafted in small batches in the USA.

Get lost in pure, abundant aromas that softly fill your space like background music. Like the songs that inspired them, our complex fragrances are layered in notes to create harmonious scents for your olfactory delight.

Our collection of scents is as diverse as our discerning and conscious buyers: we sincerely appreciate the hundreds of 5-star reviews they've graciously given our products, and included some of our favorites on pages 3-26.

Cheers,

Stacey & PJ

sustainable materials

ECO-FRIENDLY & NATURAL MATERIALS

We use 100% SOY WAX because its natural, sustainable and has the following benefits:

- Lasts up to 50% longer than paraffin wax
- Provides a pure, chemical-free fragrance
- Cleaning-burning & soot free
- Non-toxic & carcinogen free
- Made from soy beans grown in the USA and supports American farmers

Our HEMP WICKS are more sustainable, eco-friendly, and burn slightly hotter than cotton which improves the scent throw.

Our wicks have been vigorously tested to ensure our quality soy candles won't tunnel while burning.

HANDCRAFTED IN SMALL BATCHES

We use a 4-step, cold-working process to carefully craft beer and wine bottles into upcycled candle containers:

- 1) Cut the bottle using a wet tile saw
- 2) Using a flat lap, sand away imperfections and chipping
- 3) Pre-polish the smoothed edge
- 4) Polish to add shine back on the cut edge

All our home fragrance products are hand-poured in small batches to ensure consistent high-quality.

HAND POURED WITH ORGANIC FRAGRANCES

We work directly with our perfumer to develop our wide selection of complex, exclusive scents. Our organic fragrance oils are also phthalate free, paraben free, gluten free, cruelty free, vegan and IFRA compliant.

Our strong-scented home fragrance products are loaded with 10% fragrance oil (almost double the recommended amount) ensuring our products fill your space without being overwhelming, like soft background music.
