

- **EZBio®** Carboys are Gamma Sterilized and double bagged in a cleanroom environment
- **EZBio®** Carboy body features advanced ergonomic design
- **EZfil™** wide-mouth design for easy filling and cleaning
- **VersaCap®** technology provides the flexibility of interchangeable connectors

• **Made in the USA**

Caution

- Do not use carboys under pressure or full vacuum
- Do not use carboys at temperatures greater than the rated maximum
- Do not store oxidizing agents in carboys
- Do not flame carboy
- Do not use for long-term storage of strong organic compounds

Foxx Life Sciences' **EZBio®** Carboy is an advanced fluid handling system developed with the end-user in mind. The **EZBio®** Carboy serves as a highly versatile container, suitable for all fluid management applications. Carboys are made entirely of USP Class VI, FDA 21 CFR 177 Grade materials and are available Sterile or Non-Sterile, double bagged. All **EZBio®** Carboys are carefully triple inspected and double bagged in an ISO 7 cleanroom, in a facility certified to ISO 13485:2016 device manufacturing.

These carboy come in a distinctive rectangular shape that saves valuable bench space and features a wide-mouth design for easy filling and cleaning. The carboy body is ergonomically designed, with large top handles and molded hand grips in the base, allowing the user to easily hold and manipulate during filling, lifting, and pouring. Additionally, the **EZBio®** Carboy can be coupled with our patented **VersaCap®** Technology, providing interchangeable and leak-proof top connections. Our caps are molded not machined, to eliminate particles or weakness. Choose from a wide variety of adapter inserts to match your application needs. The **EZBio®** Carboy features easy-to-read metric graduation marks certified to $\pm 5\%$ accuracy ($\pm 10\%$ for 75L). The carboy material is molded into the side for easy identification, and tells the user if it can be Autoclaved or not.

The **EZBio®** HDPE Carboy is made from a translucent USP Class VI, FDA Grade resin, with excellent chemical resistance, making it ideal for most buffers and reagents as well as powders and solids.

- 1 Novel shape maximizes bench and shelf space
- 2 Bottom handles provide a secure grip while lifting and transporting
- 3 Large top handles for a full hand grip
- 4 Molded carboy identification marks
- 5 Large, clear graduation marks w/ $\pm 5\%$ accuracy ($\pm 10\%$ for 75L)
- 6 **VersaCap®** technology with versatile adapters and replaceable gasket
- 7 **EZgrip™** body design allows for maximum solution recovery
- 8 **EZfil™** wide-mouth shape for easy filling and cleaning
