

- Four different connectors available

- Polypropylene Luer Locks connect small diameter tubing with secure, leak-proof connections.

- Polypropylene Plug is used to keep inner tubing free of contaminants before use.

- CPC MPC connector design allows for quick sterile connections and the ability to transfer media easily.

- CPC AseptiQuik® Connectors provide quick and easy sterile connections for small-flow applications. The “FLIP-CLICK-PULL” design enables users to quickly transfer small volumes of media easily with less risk of operator error.

**MADE IN**

Foxx Life Sciences’ **EZBio® MTO (Made To Order) Cap Assemblies** allow the customer to select individual components suited for their project needs! Cap assemblies are available in three sizes, 38-430mm (60mL-1L EZBio® Bottles), GL45 (250mL-1L EZBio®pure Media Bottles), and 53B (2L EZBio® Bottles). Other selectable components include brand of TPE tubing, type and brand of connectors.

**EZBio® Cap Assemblies** are made entirely with USP Class VI components and Gamma Irradiated in the United States. Assemblies take advantage of Foxx's patented VersaCap® technology which means there is no machining necessary to produce the product. Perfect for single-use applications and to phase out costly stainless steel apparatuses that are expensive to clean and validate.

All **EZBio® MTO Cap Assemblies** include a polypropylene cap, cap adapter, TPE tubing ID 1/8in (3.2 mm) X OD 1/4 in (6.4 mm), fittings with Male and Female connectors, a dip tube, for an accurate draw, a 0.22 μm vent filter and a ratchet style pinch clamp. Each finished is double bagged and Gamma Sterilized in the United States.

**119**  
DIFFERENT CAP CONFIGURATIONS!

## YOUR EZBIO® MTO CAP ASSEMBLY. YOUR CHOICE.
