INSTRUCTIONS FOR USE:

- 1) Ensure hair is clean, dry and tangle-free
- 2) Plug the product into the mains power supply
- 3) Press and hold the on button to switch on
- 4) Use the +/- button to adjust the heat setting as required
- 5) When the LED display indicates your desired temperature you can begin to use
- 6) The digital display will show your temperature selection. Press the on/off button twice in quick succession to lock all keys so when the hair straighteners are in use the temperature setting cannot be changed. To unlock the temperature selection simply press the on/off button twice in quick succession again and the keys will unlock and you can adjust the temperature as necessary

STYLING:

- 1) Blast your hair until it's completely dry
- 2) Brush your hair from root to tip ensuring it's tangle free
- 3) Section your hair in strands with a comb
- 4) Style the lower layers first
- 5) Take a strand of hair about 5cm wide and press the heated straighteners together over the strand of hair at the root, being careful to avoid direct contact with the scalp and hand
- 6) Gently move the straighteners away from the root of the hair toward the tip ensuring even heat distribution
- 7) Repeat until hair is fully styled
- 8) When you're selfie ready, simply press the on/off button again. The straighteners will turn off. Then just unplug

Please be aware that the hair straighteners should be left on a safe heat-proof surface to cool down. Do not leave directly on carpet or surfaces, where possible use a heat-protective mat
