

Light up life.

Hi, we're
MPOWERD

MPOWERD

Nice to meet you

We work hard every day to make clean energy products that are affordable, easy to use and good for the earth - that's why we created Luci inflatable solar lights.

Meet Luci

The little light that's like no other.

Light never looked this good

Streamlined design features make Luci clean and sleek, with all the functional durability you'll ever need. Plus it's waterproof, lightweight and lasts up to 18 hours on a single charge.

Just add sun

That's it. Luci is completely solar with a built-in rechargeable battery that lasts for hours.

A compact little light

Luci collapses to just one inch, so you can pack it up and take it with you wherever you need light.

The little light that
does BIG things

The little light that loves the great outdoors

Tough, lightweight, and lasting for up to 18 hours on a single charge, Luci inflatable solar lights are the perfect travel companion, no matter where in the world you end up together.

The little light that turns any hour into magic hour

Beautifully bright with a frosted finish, the Luci Lux inflatable solar light's soft, warm glow can transform any moment into an unforgettable experience.

The little light that makes a house a home

Add a touch of modern design to your space with the completely solar, safe and versatile Luci inflatable solar light.

A DJ is shown from the chest down, wearing a blue patterned shirt, operating a turntable. The scene is dimly lit with vibrant, colorful lights. In the foreground, there are three large, glowing inflatable solar lights: one in the bottom left corner is bright blue, one in the bottom center is bright red, and one in the bottom right is bright yellow. In the background, a spherical light fixture with many small, multi-colored lights is visible. The overall atmosphere is that of a lively party or event.

The little light that's the life of the party

With 7 brilliant hues at the push of a button, the Luci Color inflatable solar light elevates your party a level, taking it from everyday to epic.

The little light that's ready for anything

A pocket-sized lantern, flashlight, and emergency light all-in-one, the Luci EMRG inflatable solar light has got your back when any disaster strikes.

The little light that empowers

We do things a little differently
- the more we sell, the more
we can distribute to those who
need light most.
