

Juni 2

CAR SUN VISOR MIRROR

Get ready to transform your car visor into a personal beauty station with Juni 2! Inspired by the modern woman who thrives in her dynamic lifestyle, Juni 2 is here to revolutionize the way you perfect your look, even while on the move. Juni 2 is more than a mirror, she's an elegant accessory that seamlessly integrates into your car's interior. Designed to fit effortlessly onto your visor, Juni 2 takes up minimal space while providing maximum utility. With Juni 2, you have the power to enhance your makeup look whenever and wherever!

At Fancii, we're all about bringing joy and confidence into your everyday beauty routine by providing you with beauty tools you can trust. We're passionate about creating thoughtfully designed products, so we would love to hear your feedback and connect with you on social! We design and create with you in mind, let us be a part of your story.

Co-Founder, Fancii & Co.

Includes:

1 / LED Light

2 / Main Power Button/ Light Settings Button

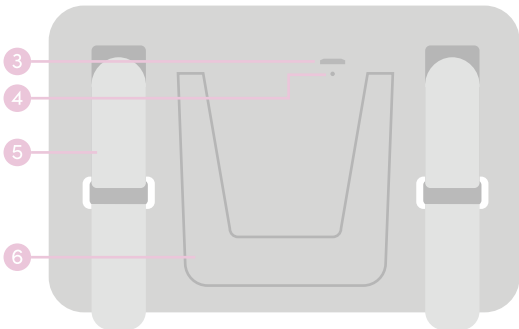

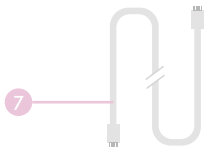

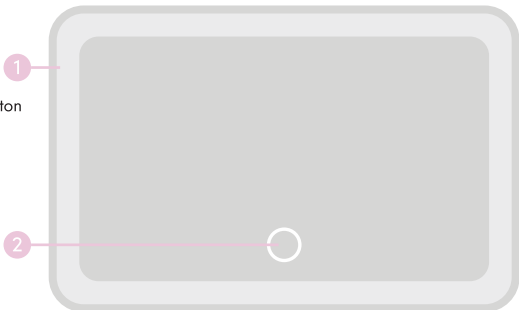

3 / Micro USB Port

4 / Charging Indicator

5 / Adjustable Straps

6 / Kickstand

7/ Charging Cable

Features

Three dimmable LED light settings

With 52 built-in LED lights, choose from neutral white, soft white, and natural daylight to simulate any light environment for optimal makeup and skincare application.

Touch screen led design

Made with our distortion-free ultra reflective glass and power on/off touch screen.

Universal design

Compact and lightweight. Easy to install and suitable for all car sun visors.

Eco-friendly power

Juni 2 is designed with a rechargeable battery to reduce waste, conserve power, and save you money on expensive replacement batteries. A full charge lasts up to 7.5 hours.

From car to vanity top

Transform your car mirror into a tabletop vanity mirror by pulling out the kickstand at the back of the mirror.

3 light setting options

Neutral White (6000k)

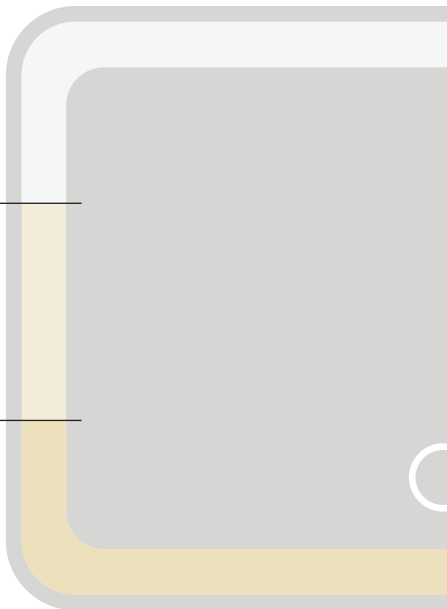

True neutral white (no red or blue hues), is recommended for getting photo-ready.

Soft White (3500k)

This warmer hue (free of blue light) is perfect for creating a makeup look for an evening occasion like a date night or for night-time skincare routines to help ease you into sleep.

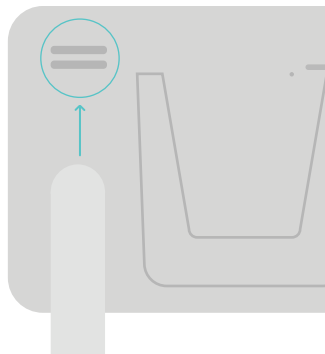

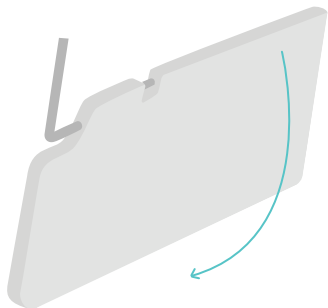

Natural Daylight (5000k)

All-round ideal light for daytime makeup as it simulates natural daylight.

Let's begin

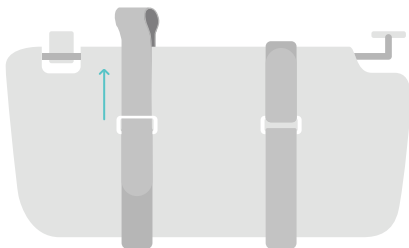

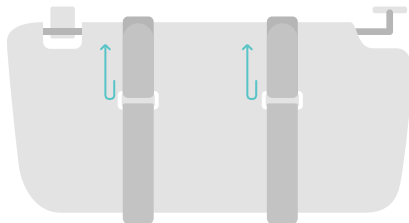

- 01** Insert the included straps onto the slots on the back of the mirror.

- 02** Lower the vehicle's sun visor to prepare for attaching your Juni 2, and also for detaching the Juni 2.

03

Using the straps, attach the mirror to the visor and tighten the straps as needed to ensure the mirror is securely attached to the visor.

04

To detach, loosen the straps on the back until the mirror can be lifted upward and away from the visor.

Powering up

- 1/ We recommend charging your Juni 2 when you first receive it to ensure that the battery is fully powered. Follow the instructions in the **Stay powered** section to learn more.
- 2/ To turn the LED lights on, press the power button located on the front of the mirror
- 3/ Juni 2 has three different LED light options. To cycle through the different light settings, touch the power button once for neutral white, twice for soft white, and thrice for natural daylight.

Note: Touching the power button a fourth time will turn the light off. Alternatively, the light will automatically turn off after 30 minutes.
- 4/ Holding down the power button will dim or brighten the light until you reach your desired brightness. The light is dimmable in every setting.
- 5/ We recommend turning the power off when you're not using Juni 2 to save energy

Stay powered

- 1/ Use the Micro USB cord provided to charge the battery.
- 2/ You will find the Micro USB port located on the back of the mirror. Attach the USB cab and connect the other end to a power source. The battery takes approximately 1.2 hours to fully charge.
- 3/ The charging indicator on the back of the Juni 2 car mirror will blink red when it has low battery and needs to be charged.
- 4/ When charging, the indicator will stay a solid red. Once charging is complete, the indicator will turn green.

Using Juni 2 as a tabletop mirror

- 1/ Turn Juni 2 over to reveal the back and lift up the kickstand.
- 2/ With the kickstand outward, place Juni 2 onto a table or other flat surface.
- 3/ Juni 2 can now be enjoyed as a tabletop vanity mirror.

Cleaning Juni 2

- 1/ Use a glass cleaner or water on a microfibre cloth or squeegee to wipe the glass in circular motions to avoid smears.
- 2/ Wipe down the rest of the mirror with a slightly damp cloth.
- 3/ Straps can be detached to wipe down with a damp cloth or washed gently and air dried.

Warnings

- ▲ **DRIVE SAFELY.** Do not use the mirror while driving for safety purposes.
- ▲ Keep this product away from young children and pets.
- ▲ This product contains glass and may shatter if dropped. Handle with care.
- ▲ Do not position the mirror in direct sunlight. Reflection of direct sunlight by mirror could cause a fire.

- ⚠ This mirror is not waterproof. To protect against electrical hazards, keep away from water.
- ⚠ Use this mirror for its intended purpose.
- ⚠ Batteries should be recycled or disposed of as per state or local guidelines.

Battery disposal

Note: Opening and disassembling the device will void its warranty. The process is not reversible. This action must only be undertaken when the device is ready to be disposed of. All batteries should be recycled or disposed of as per state or local guidelines, and should not be thrown away in household waste. To remove the battery, you need to disassemble the unit and carefully extract the lithium battery. Wear gloves during this process for your safety. Do not dispose of in a fire as the battery will likely explode and cause injury.
