TRANSFORMABLE TRAVEL MIRROR

Three dimmable LED light settings

Choose from neutral white, soft white, and natural daylight to simulate any light environment for optimal makeup and skincare application.

Look your best from every angle

Tilt, swivel, and pivot to look your best from every angle. Transform Sara into a full-sized vanity mirror to get a better view of yourself comfortably, or fold the mirror into a slim compact to reduce space on your counter.

Ready-to-go

At 10 inches tall by 6 inches wide, Sara folds into a flat, lightweight oval compact that is easy to carry with you wherever you go. Slip it easily into your tote bag or travel luggage without taking too much space.

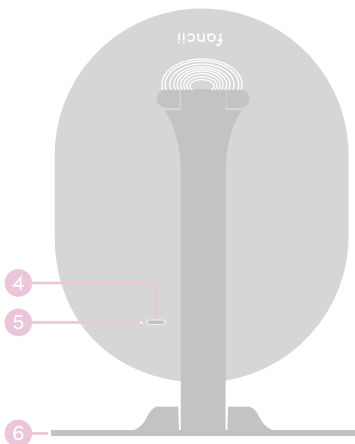

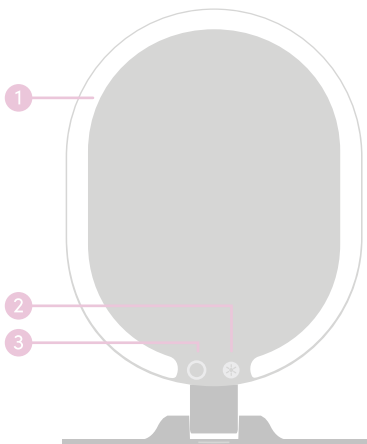

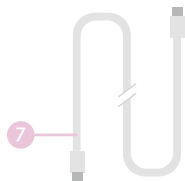

Eco-friendly power

Sara is designed with a rechargeable battery that lasts up to 12 hours with a full charge.

- ▲ Not suitable as a toy for children
- ▲ Cleaning and user maintenance may not be carried out by children without supervision

Includes:

- 1 / LED Light
- 2 / Light Settings Button
- 3 / Power Button
- 4 / USB-C Port
- 5 / Charge Indicator
- 6 / Cover & Base
- 7 / USB-C Charging Cable

3 light setting options

Neutral White (6000k)

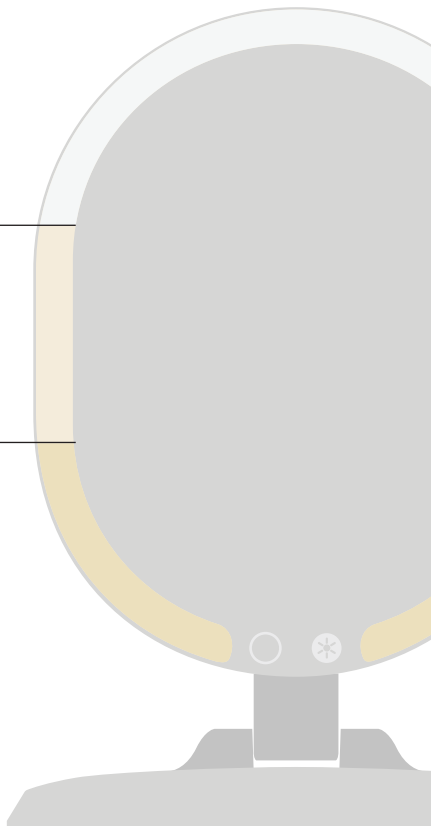

True neutral white (no red or blue hues), is recommended for getting photo-ready.

Soft White (3500k)

This warmer hue (free of blue light) is perfect for creating a makeup look for an evening occasion like a date night or for night-time skincare routines to help ease you into sleep.

Natural Daylight (5000k)

All-round ideal light for daytime makeup as it simulates natural daylight.

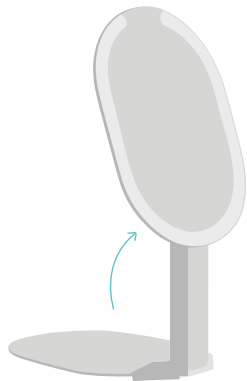

Let's begin

- 01** Gently unfold Sara and tilt the mirror at an angle of 30°.

- 02** Adjust the height by flipping the mirror in an upwards motion for a higher view.

- 03** To close Sara, simply flip the mirror back and fold the mirror into its original position.

Powering up

1 / We recommend charging Sara when you first receive it to ensure the battery is fully powered. Follow the instructions in the **Stay powered** section to read how.

2 / To turn on the LED lights, simply unfold the mirror. The LED lights will stay on while the mirror is open and will automatically shut-off once the mirror touches the base or is folded shut again.

3 / Sara has three different LED light options. To cycle through the different light settings, tap the (✱) button. Sara will remember the last setting you used when you power it back on.

4 / Holding down the (○) button will dim or brighten the light until you reach your desired brightness. The light is dimmable in every setting.

5 / To continue using Sara without the LED lights or to turn off the light, simply tap on the (○) button again. We recommend you close the mirror and turn the power off when you're not using Sara to save energy.

Note: The light will automatically turn off after 30 minutes to conserve power.

Stay powered

1 / Use the USB-C cord to charge the battery.

2 / Attach cord to USB-C port under Sara and connect the other end to a power source. The battery takes approximately 2.5 hours to fully charge.

3 / When charging, the charge indicator beside the USB-C port will turn red. When it is fully charged, it will turn green.

Cleaning Sara

1 / Use a glass cleaner or water on a microfibre cloth or squeegee to wipe the glass in circular motions to avoid smears.

2 / Wipe down the rest of the mirror with a slightly damp cloth.

Warnings

- ▲ Keep this product away from young children and pets.
- ▲ This product contains glass and may shatter if dropped. Handle with care.
- ▲ Do not place the mirror in direct sunlight. Reflection of direct sunlight by the mirror could cause a fire.

- ⚠ This mirror is not waterproof. To protect against electrical hazards, keep away from water.
- ⚠ Use this mirror for its intended purpose.
- ⚠ Batteries should be recycled or disposed of as per state or local guidelines.

Battery disposal

Note: Opening and disassembling the device will void its warranty. The process is not reversible. This action must only be undertaken when the device is ready to be disposed of. All batteries should be recycled or disposed of as per state or local guidelines, and should not be thrown away in household waste. To remove the battery, you need to disassemble the unit and carefully extract the lithium battery. Wear gloves during this process for your safety. Do not dispose of it in a fire as the battery will likely explode and cause injury.

Here to help

We pride ourselves on providing premium beauty tools which is why all of our products are backed by a 24-month warranty. If you have any questions or need further assistance, you can send us an email, connect with us on Live Chat or give us a call! Our friendly support team is here to help.
