

# Pureal hybrid home PPF-1000

## SPECIFICATIONS

### Filter Housing Size (d\*L, in)

Product type	PnP System(IN/OUT-3/8")
Filter Size	10" (Φ3.15"x10")
Filtration Type	Dead-end Type

### Operating Conditions

Working Pressure	10~125psi(0.7~8.6bar)
Temperature	40~100°F (4~38°C)
Service Flow Rate	1.5GPM (5.7LPM)
Capacity	10,000 gallons
Etc.	Cold water use only

Filter performance can vary depending on the influent water quality.

## FEATURES & BENEFITS

- Convenience quick cartridge change system to prevent contaminations.
- Convenient installation & Space efficiency.
- Reduce rust, sand, dust, impurity have 1~30µm size.
- Reduce Chlorine Taste and Odor.
- Reduce VOCs and THM.

## MATERIAL SPECIFICATION

Material	Sediment Carbon Block Scale Inhibitor Mineral Ceramic balls KDF 55
----------	--

## EXPERIMENTS DATA

### Free Available Chlorine Reduction Test

- Influent (Free Available Chlorine) : 2.0mg/L
- Ref. NSF Standard 42

### Data Summary Table

Filter Size (inch)	Capacity (gallons)
10"	10,000

### RoHS

- Content of 6 Hazardous Substances

### Data Summary Table

Test Item	Pb	Cd	Hg	Cr (VI)	PBB	PBDE
Result	N.D.	N.D.	N.D.	N.D.	N.D.	N.D.

## APPLICATION

- Water Purifier, Under sink
- Refrigerator, Softener
- Coffee maker, Ice maker
- Washing machine, Dish Washer, Bidet
