

ROCK LED Modules

Product Features

The ROCK LED Modules, 12v, have been designed for ultra high efficiency using 33% less energy than their competitors and with an extra long lifespan - up to 10 years for white and 5 years for RGB/RGBW . They have an ultra wide beam angle of 160° and are great for slimline letters. Suitable for external use at IP66, they have an integrated heat sink to reduce light degradation and colour deviation.
