

# PureWine™ | To Your Health

## Mission

*The mission of PureWine is to end the problem of wine intolerance, so more people can enjoy the unique pleasures and proven health benefits of wine.*

## Did You Know?

**39** million people, or **35%** of the wine drinking population in the U.S., suffer moderate to chronic side effects from drinking wine. And **70%** of women over **45** years old suffer these side effects.

It's ***not*** the alcohol – most side effects occur after as little as a single glass of wine and have nothing to do with a reaction to alcohol.

It's **2 things**:

- Histamines, naturally formed in wine during fermentation
- Sulfite Preservatives, added to the bottle to keep wine from oxidizing.

## The PureWine Difference

PureWine alleviates ***all*** of the most common side effects from drinking wine.

***Imagine no more:***

Headaches | Congestion | Skin Flush | Upset Stomach | Hangovers

And PureWine works without affecting the taste, aroma or color of wine.

PureWine makes two products: The Wave™ which filters and aerates a bottle of wine and The Wand™, which filters a glass.

PureWine products are:

- Safe, effective & reliable
- Tested according to FDA Standards for food-grade materials
- Manufactured with BPA-Free components

All PureWine products and components are proudly made in the U.S.
