

KETO ENERGY for your DOG

Introducing

C8 KetoMCT OIL for Dogs by LifeSense™ Products

Why LifeSense C8 KetoMCT Oil for Dogs?

Dogs share 84% of human DNA. Humans have been enjoying benefits of MCT oils since 1960s. Dogs may derive the same benefits that will **help them to stay fit and healthy.**

LifeSense Products is the first company in the WORLD to offer our beloved companions C8 KetoMCT oil to increase production of ketone bodies (KBs) to assist with **alertness, sustained energy, satiety, and weight management.**

We are serious dog lovers at LifeSense Products. Currently, your dog will receive the same or very similar C8 KetoMCT oil offered to humans, but in a custom-designed bottle with a safe pouring solution, to assure your dog receives the optimal amount of MCT oil, proportional to your dog's body weight.

Dogs, their wolf predecessors, and humans evolved on an eating pattern involving intermittent fasting (IF) as food was not always available in the wild. During IF and higher fat-feeding, beneficial KBs are produced. MCTs are a unique fat that preferentially generates beneficial KBs. Some modern companion dogs may be overfed, fed the wrong kind of foods, are under-exercised and gain weight. Pet owners are increasingly seeking out low-carb and non-GMO, functional ingredients for their furry members of the family. Addition of MCT oils allow dogs to make KBs even with the occasional "carby" snacks or meal.

Featured in *Pet Age Magazine* April 2019 issue

“ My husband and I take the C8 Keto MCT oil for humans with incredible results, so I was excited to get the dog version for our 4-year-old, Gracie Rose. **I am very impressed with the results.**

Her energy level is much increased, and she wants to wrestle and play like when she was a puppy. We place the recommend amount with her food, and she cleans her entire bowl. This is a fantastic product that is going to continue being part of her daily routine.” - Alison

What Are the Potential Benefits of LifeSense C8 KetoMCT Oil for Dogs?

- Promotes **cognitive skills & alertness** for dogs of all ages*†
- Supports **weight management***
- Does **not** store in body fat (adipose)*
- **Much more ketogenic** than coconut oil (mostly C12 - Lauric Acid) and MCTs with mixed fatty acids*
- **Rapid fuel** for brain and body*
