

Company Profile

Established in 1922 and headquartered in Chicago, Illinois, Tripp Lite is a world-leading manufacturer of power protection and connectivity solutions for multiple applications: large enterprise networks and VoIP, manufacturing, health care, audio/video and small office/home office.

A Tradition of Innovation:

In 1981, Tripp Lite introduced the first UPS system designed to protect desktop computers. Today, Tripp Lite is the first to introduce a line of network-grade PDUs with built-in Gigabit Ethernet switches.

A Reputation for Quality:

Tripp Lite's premium Isobar® Surge Suppressor sets the standard for surge protection, with over 19 million in service worldwide.

A Global Presence:

With offices in more than 60 countries, Tripp Lite serves customers around the world.

A Commitment to Service:

Tripp Lite's Chicago-based, in-house technical specialists are available by phone, email and chat.
