

## Terrova vs. PowerDrive Comparison Guide

### Freshwater and Saltwater Models

	Terrova/Riptide	PowerDrive/Riptide	Notes
Ability to use foot pedal with i-Pilot Remote	YES	NO	Only Terrova/Riptide models offer ability to use a foot pedal simulatenously with an i-Pilot remote
Easy Stow and Deploy w/ Lift Assist	YES	NO	The Terrova/Riptide features a one hand stow/deploy lever and includes a "Lift-Assist" mechanism that carries the weight of the motor and makes stowing a lot easier
Best-in-Class Foot Pedal	YES	NO	The Terrova/Riptide foot pedal is known for having superior usability and reliability, using magnetic switches instead of dome switches and heel/toe steering instead of left/right
Ease of Accessory Installation	YES	NO	Upgrading to Co-Pilot or i-Pilot on the Terrova/Riptide is as simple as plug and play
Higher Thrust Available	YES	NO	The Terrova/Riptide are available in 55, 80 and 112lb thrusts vs 55 and 70 for PowerDrive/Riptide
