HERBS in 3.5 inch Pot

The scents of fresh herbs inspire seasoned chefs and novices alike. Plant a garden full to dry for the winter, or a window box to enjoy for the summer. Try using them as accents in mixed containers or borders in the flower garden. Grow in full to part sun with good drainage. Do not overfertilize as this results in larger leaves with less flavor. Harvest just before blooming.

Herbs	Use
Basil Large Leaf	Sweet scented, great for pesto
Catnip	Every cat deserves a treat
Chives	Perennial onion-like leaves
Cilantro Santo (Coriander)	16" plants with deep green leaves
Dill	Fernleaf to use as leaves or seed
Lavender Pinnata	Fragrant flowers and leaves
Lemon Balm	Lemon scented for beverages
Mint Chocolate	Subtle hint of chocolate for desserts
Mint Mojito	Use for refreshing summer drinks
Mint Peppermint	Use for jellies and beverages
Oregano	Perennial used dry or fresh
Parsley Curled	Curled leaves for garnishes and flavoring
Parsley Italian	Flat leaves with intense flavor
Rosemary	Upright plant for flavoring meats
Sage	Greyish leaves for dry and fresh use
Tarragon	French variety
Thyme	Use in soups, stews and sauces
Thyme Lemon	Lemon scented leaves for cooking & beverages
