

DTA! has a new surprise

But before ArtWalk starts up on Saturday, make sure you join us for another great local band, Zydeco Radio, at Downtown Alive! on Friday at Parc Sans Souci.

We are also launching something new there too. Magical bathrooms! Well, kind of.

DTA! long has been a family-friendly event and local favorite for the past 33 years. In that time, DTA! has brought in some of the best bands to Acadiana and made improvements to offer a full bar, more beer options, add recycling and reusable cups and VIP but one part of DTA! hasn't yet gotten the VIP treatment – bathrooms!

tents, Zydeco Radio.

Ladies and gentlemen, say goodbye to port-o-lets and hello to luxurious, roomy and clean restroom facilities at Downtown Alive! for all Parc Sans Souci dates.

These bathrooms will help every DTA! guest Potty Like a Rockstar complete with real sinks for handwashing and an attendant for the length of the event to make sure everything is in tip-top shape.

As the first weekly free music series, we like to think we set the bar and we're raising it yet again by upping our bathroom game with the terrific facilities from Potty Girl, a local company we are excited to work with on this important improvement.

So come see for yourself and Potty Like a Rockstar with Potty Girl at DTA!

Kate Durio always can be found downtown where she lives, works and loves celebrating Acadiana Culture (which she thinks is the best in the world). She can also be found producing Downtown Alive!, ArtWalk, Movies in the Parc and many community improvement shenanigans while sending snail mail and going to the public library.
