## Grooming Wipes Instruction Guide

**Petpost** Grooming  
Wipes use aloe and  
coconut oil extracts  
with anti-bacterial,  
anti-fungal, and  
allergy-relieving  
properties.

Our wipes are so good  
that our dogs don't  
even bathe with their  
tongues anymore.

# Does Your Beautiful Buster Get Dirty and Stinky Between Baths?

**Washing your dog too frequently can dry out their skin, but you can't just let them run around dirty and stinky. That's why we made these wipes.**

Not all cleansing wipes are created equal. Some smell nice but don't do anything to actually clean your dog. Others use harsh chemicals or only mask smells instead of eliminating them.

Petpost Grooming Wipes are different. Did you know that coconut has natural antibacterial and antifungal properties? You probably know that aloe is great for moisturizing and nourishing the skin and fur. You may have used aloe to heal a sunburn on yourself or your (human) child.

Our wipes combine coconut extracts with aloe and other natural ingredients to actually remove dirt, debris, and smells from your dog's coat instead of just masking odor.

## Why not just wash my dog?

Bathing your dog more frequently than once or twice a month removes healthy oils from their fur and dries out their skin. Using Petpost Grooming Wipes can clean up Lilypad in between baths for a clean-looking and fresh-smelling pup in just a few minutes!

**Dirty dogs are no match for the natural cleaning power of Petpost!**

A close-up photograph of an old dog's face, likely a bulldog, showing its eyes, nose, and open mouth. The dog has white and grey fur. One of its eyes is red, and its mouth is open, revealing its teeth and tongue. The background is dark and out of focus.

Follow these instructions to give old Biscuit a cleanup without the hassle of a full bath.

Here's what you need:

- **Petpost** Grooming Wipes
- About 5 Minutes
- Some Yummy Treats\*

\* Some dogs like to fidget while being wiped down. Keeping your dog's favorite treats handy can help distract them so you can give them a thorough wipe down. You want the experience to be pleasant for Max.

# Instructions:

The Petpost Grooming Wipes are easy and convenient to use. Follow these instructions to keep Daisy's body clean, free of bacteria, and best of all, not stinky. She'll thank you with lots of sloppy kisses and cuddles.

- 1.** Shake the jar of Grooming Wipes before grabbing one to use on Fido. The good stuff tends to rest in the bottom of the container, so you want to make sure each wipe is thoroughly damp before each use.
- 2.** Since your dog's feet tend to be the dirtiest, start with Bailey's head and move back toward the tail and down toward the feet to avoid transferring dirt from one place on your dog's body to another.
- 3.** The aloe and coconut oil are great for your dog's skin, so don't be afraid to wipe vigorously enough to get underneath your dog's fur. These wipes can reduce allergy-causing dander and soothe irritated skin, so they're handy whether you, a family member, or Snoopy have allergies.
- 4.** These wipes are large, but you may need more than one wipe if your dog is very large (or especially dirty.)
- 5.** The Petpost Grooming Wipes are gentle enough to be used every day without drying out Stella's skin. We recommend daily cleanings as part of "fun time" with your dog.
- 6.** There is no need to rinse this product off your dog. The plant derived formula is safe for your dog and will leave a luscious scent with a lovely shine on your dog's coat.
- 7.** Always give Sprout plenty of treats and praise, so he learns that a wipe down is a good thing. Soon enough, he can learn to stop at the front door mat to have his paws wiped down each time he comes inside.

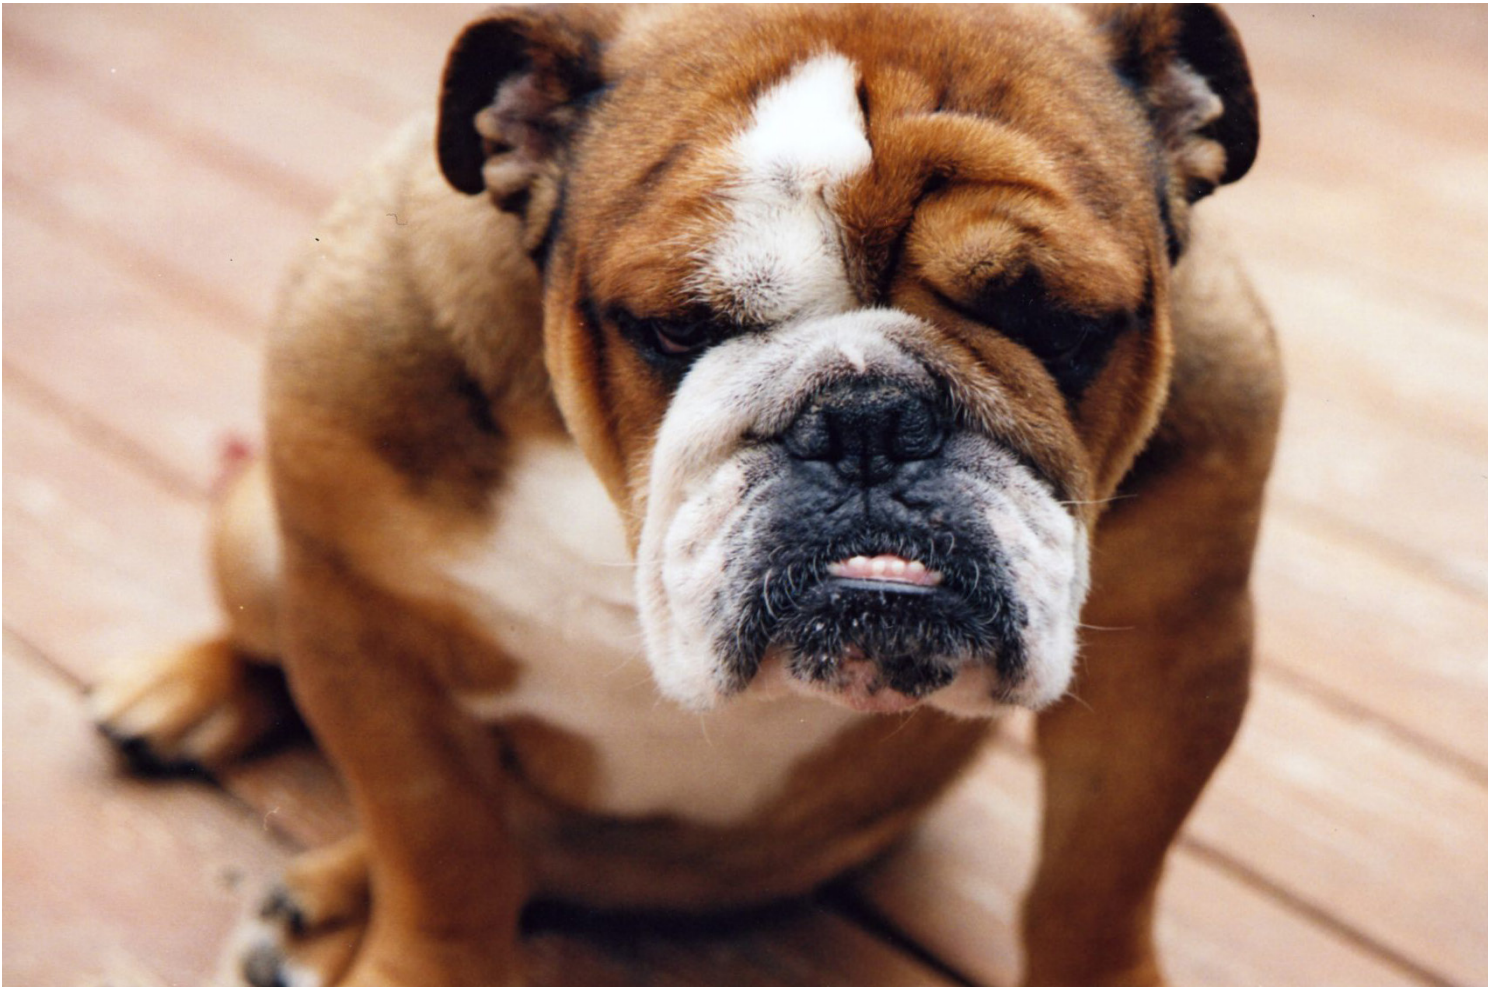

# Now that Pupcake is looking and feeling a lot better, here are a few more pieces of advice:

- Shadow may only need to use the Petpost Grooming Wipes occasionally, like after he finds the only mud puddle in the city. But they're safe enough to use every day and the coconut oil and aloe will keep your pup looking sharp and healthy, so you should use your Petpost Grooming Wipes regularly.
- Make sure your dog is on a healthy, natural diet with plenty of nutrition. High-quality dog food and daily supplement treats can do a lot of good for J.K. Growling's hygiene and overall health.
- Get stainless steel, glass, or porcelain food and water bowls to reduce the amount of toxins that Moxie can consume. Plastic containers can harbor bacteria that may irritate or infect Mr. Snugglepuss.
- The ingredients in this product are: Purified Water, Glycerin, Sodium C14-16 Olefin Sulfonate, Cocamidopropyl Betaine, Octyl Phenol Ethoxylate, Phenoxyethanol, Fragrance, Polyquaterium 7, Aloe Vera Leaf Juice, Oatmeal Extract.

The loving formula in  
the **Petpost** Grooming  
Wipes clean, nourish,  
and protect your pup's  
skin and coat most  
effectively in the  
hands of an equally  
loving owner.

From now on,  
that'll be you.
