Paw Wipes Instruction Guide

Petpost Paw Wipes
unique blend of
coconut oil, aloe,
and jojoba oil gently
cleans and nourishes
your dog's paws.

So far, though, we
haven't figured out a
way to get your dog to
wipe himself.

Does Your Beautiful Bella Have Dirty, Itchy, Dry, Or Cracked Paw Pads?

Dogs have more sensitive feet than you might expect. They chew on them when they get bored, and their paw pads can crack when they get too dry.

Many products that are designed to help your dog's feet are messy, contain a bunch of nasty chemicals, or just don't work.

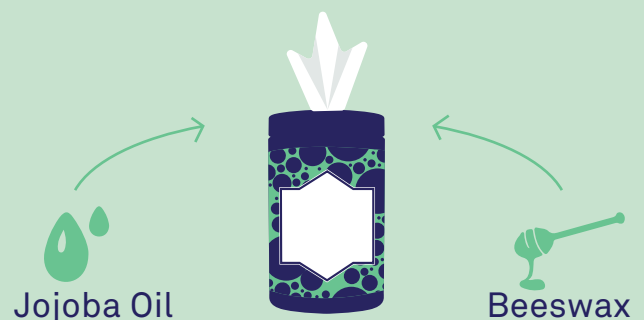

We designed our Paw Wipes with coconut oil, which has natural antibacterial and antifungal properties, and threw in jojoba oil and aloe to nourish your dog's skin for the gentlest, most soothing paw wipe you will find.

We're an environmentally conscious company, so our Paw Wipes are made in the United States with only the highest quality ingredients and recyclable packaging, so it's good for the environment and good for your dog.

Why worry about my dog's paws?

Dry, cracked, or infected paw pads can be extremely painful for your dog, and each walk on hot pavement or icy sidewalks can just make them hurt worse. Our soothing paw wipes clean and moisturize your pup's paws with ingredients like coconut oil, jojoba oil, and aloe that have natural healing properties.

Dry paws are no match for the natural power of Petpost!

Follow these instructions to provide instant relief for Pogo's paws.

Here's what you need:

- **Petpost Paw Wipes**
- **About 5 Minutes**
- **A Good Distraction for Your Dog***

* Many dogs aren't fond of having their feet messed with and might play tug of war with their foot. Give Mr. Scruffles plenty of his favorite treat to convince him to hold still while you wipe his paws.

Instructions:

The Petpost Paw Wipes are easy and convenient to use. Follow these instructions to clean, soothe, and heal your dog's paw pads.

- 1.** Shake the canister of paw wipes before use. The best stuff tends to settle in the bottom of the jar, so a good shake will help ensure that each wipe is thoroughly coated with our natural ingredients.
- 2.** Gently hold one of Zoe's feet and wipe it thoroughly, making sure to get the top of the foot, in between the toes, and even between the paw pads. Pay special attention to any areas that are extra dry or cracked.
- 3.** Repeat with all 4 feet (unless, of course, you have an awesome tri-pawd!) If Maximus is fidgety, make sure to give him plenty of treats in between each foot. You want him to learn that the sight of the canister means he'll be getting yummy treats in return for holding still while you wipe down his feet.
- 4.** You don't need to limit your use to Fido's feet – while you should avoid the eyes, these wipes are safe to use anywhere on your dog's body.
- 5.** Regular use will help moisturize and soothe dry, cracked paw pads and remove allergens that cause your dog to chew on his feet.
- 6.** Enjoy your Mr. Scruffle's clean, soft feet. He will show you how happy he is by giving lots of wet, slobbery kisses and cuddles!

Now that Pupcake's paws are looking and feeling a lot better, here are a few more pieces of advice for you:

- Continue using your Petpost Paw Wipes regularly. This product doesn't just clean your dog's paws, it will also help soothe and protect your pup's paws from dryness, irritation, and hyperkeratosis.
- Make sure your dog is on a healthy, natural diet with plenty of nutrition. High-quality dog food and daily supplement treats can do a lot of good for J.K. Growling's hygiene and overall health.
- Get stainless steel, glass, or porcelain food and water bowls to reduce the amount of toxins that Moxie can consume. Plastic containers can harbor bacteria that may irritate or infect Mr. Snugglepuss.
- The ingredients in this product are: Purified Water, Glycerin, Octyl Phenol Ethoxylate, Disodium Coco-Glucoside Citrate, Phenoxyethanol, Fragrance, Jojoba Oil, Coconut Oil, Aloe Vera Leaf Juice, D-Alpha-Tocopherol (Vitamin E).

The loving formula
of **Petpost** Paw Wipes
cleans and nourishes
your pup's paws
most effectively
in the hands of an
equally loving owner.

From now on,
that'll be you.

Petpost!

Thanks for supporting our mission to keep every dog clean, healthy, and happy.
