Wesley's art is a depiction of life in Kibera. He draws all his inspiration from Kibera, a place he calls home. Having lived here all his life, he knows his environment and community well and believes, as an artist, he can tell positive stories to the world about Kibera through his paintings. Since he was introduced to acrylic on canvas, he has found comfort in working with this medium. Occasionally, Wesley will attempt the wet-on-wet technique, which he thinks yields better results when blending paints. Wesley has taken part in Uweza art events where he has displayed and sold his paintings. He has also exhibited in events in the US and UK.
