

LIQUID SOLUTIONS

EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Product ref. CA-15

Date: 10/05/22

CAPSULERS, Heat-shrink type

Applicators for PVC / PET-heat shrink capsules or security seals, for wine / spirit / oil bottles or similar. PVC or PET capsules only. All models have an electric heating coil which melts the plastic and shrinks it onto the container. Will not work with metal (tin) or poly laminate capsules.

CA-15a machine has an air blower for even heat distribution and to prevent capsules lifting up as they are applied.

CA-15b Basic version, no blower, best for open top shrink sleeves.

CA-15c Bench version, adjustable for different bottle diameters.

CA-15d Bigger version of the CA-15b for big bottles and shrink sleeves.

240V / 50hZ supply, approx. 600W. – 1200W. power consumption.

Prices:

CA-15a Blower Type £195

Max Capsule Dimensions. Height 82mm. Diameter 35mm
