EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Product ref. CA – 11

Date: 16/06/23

## Hand-held Induction Sealer

Uses heat generated by non-contact electromagnetic induction to apply suitable foil/polymer seals to bottles and jars made of, glass and other non-metallic materials, such as plastics: PE, PET, PP, PVC, ABS.

Siemens IGBT power management, high efficiency, low power consumption. Touch-control panel to set power and time, with automatic counting function.

Automatic heating, over-current protection , auto power off after 15 minutes of inactivity.

Video [HERE](#)

Supply Voltage	220V/50Hz
Output Power	600-1000W
Size Of Seal	10-100mm
Capacity	10- 40 bottles/min
Sealing Heat	0.1-5.0 sec
Seal Thickness	0.05-0.40mm
Machine Size	320*350*60mm
Machine Weight	2.5kg

Price:

Induction Sealer

**£295**

*excludes delivery, commissioning and VAT*
