EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Product ref. CA-15e

Date: 10/10/23

Bench Top Heat-Shrink Capsuler

Applicator for PVC / PET-heat shrink capsules or security seals, for wine / spirit / oil bottles or similar. PVC or PET capsules only. All models have an electric heating coil which melts the plastic and shrinks it onto the container. Not suitable for metal (tin) or poly laminate capsules.

Key Benefits

- Lever operated to ensure consistent capsuling process.
- Full temperature control.
- Ceramic plate to stop capsule from rising during shrinking process.
- Simple operation and cleaning

220V / 50Hz supply.

Available with industrial or standard UK 3-pin plug.

Price: £895

Prices exclude delivery and VAT
