EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

LA-10 'MEGA' / 'EKKO' semi-automatic labelling machines

06/02/2024

Compact, robust, bench-top machines capable of applying self-adhesive labels from a roll onto a variety of types and sizes of container: normally round cylindrical-sided bottles but adaptations available for other parallel-sided containers: hexagonal, octagonal etc.

Able to apply single labels, wraparound labels, front and back labels from the same (printed alternately) or options for separate rolls, date/lot-code printing, clear plastic labels, tall labels, orientation of labels front relative to back, or to reference mark, or to pre-applied label.

Speed approximately 500 bottles per hour, depending on label length and operator skill.

Standard machines: three phase 380V. Single phase on request. Compressed air supply needed for date printer.

MADE IN ITALY

date / lot no. printer

Lift Roller / Trigger

Tall Rollers / Supports

Example Prices

LA10 'MEGA' - Standard version, single label reel:	£4,655
LA10 'EKKO' - 2-reel version	£5,830
Kit for bottles 40 to 55mm diameter (then max is 120mm)	£135
Kit for bottles 25 to 40mm diameter (then max is 60mm)	£150
Shaped rubber roller (for bottles with a label recess)	£135
Addition for tapered-side (<1.5° and limit on label size)	£165
Sensor for shaped bottles (hex / octagonal etc)	£745
Single phase motorisation	£220
Date/lot marker (hot foil printer)	£2,650
Kit for label detection on pre-labelled containers	£505
Kit for detection of a bottom- or side-notch	£760
<i>Below extras are PER LABEL STATION:</i>	
Tall rollers / supports for labels up to 210mm height	£705
Sensor (ultrasonic) for transparent labels	£1,010

Prices exclude packing, delivery, commissioning and VAT

Other details

Lift the foam roller to insert a bottle and lower to trigger the mechanism. Bottles are rotated by a driven rubber roller. Label position easily adjustable

Labelling parameters controlled by PLC. Standard machine can memorise 19 different formats.

Standard machines take round bottles in the range 55mm to 120mm diameter. Kits available for labelling of smaller diameter, shaped or lightly tapered bottles

Standard label heights 15mm to 170mm, taller on request.

Label winding spec: left-edge leading, inside wound, maximum diameter 280mm on 76mm cores.
