

Nature

Sensory Bin

In this lesson, children will explore and document nature elements through sensory play.

 0-30min  Small Group Activity  Kindergarten

Teacher Support:

Key Objectives:

- Child will strengthen their fine motor skills
- Child will explore nature sensory bin
- Child will compare and contrast items

Materials:

- Eco-bricks™ Bamboo 88 Piece Set
- Rocks
- Leaves
- See-through bag of soil
- Bin for table

Lesson Activity:

- Create a "nature sensory bin" by combining all lesson materials into a bin.
- The child will explore the elements, using their senses
- Have the child answer the following questions:
 - What do all of these objects have in common?
 - What are the physical characteristics of each item? Color, Shape, etc.
 - How do they feel?
- Teacher will explain where all the items are naturally found in nature.
 - The Eco-bricks™ Bamboo are made of 100% bamboo! Highlight the natural grain and smooth exterior to the students.
- *Extra activity, have the students draw a picture of a scene with all of the items together.
