

Love the Earth

In this lesson, children will build a heart build set with Eco-bricksTM Plus Color and learn ways we can love the Earth.

 0-30min  Small Group Activity  Pre-School / Kinder

Teacher Support:

Key Objectives:

- Develop fine motor skills
- Child will build a heart out of construction blocks
- Child will color the Love the Earth color sheet.

Materials:

- Eco-bricksTM Plus Color 32 Piece Set
- Inspirational Photo/Build Example
- Love the Earth Color Sheet
- Crayons

Lesson Activity:

- Let's make a heart out of Eco-bricksTM Plus Color today!
- Child (by themselves or with help from teacher) will use the example photo to help guide them into building a heart shape out of the colored construction blocks.
- Once the heart is built, pass the heart build-set around in a circle among the children and have them all give it a hug.
- Teacher will talk about how the construction blocks are made out of wood and how this helps protect our Earth from harm (and plastic waste).
- Give each child a "Love the Earth" color sheet and have them color engage the children in discussion on ways they can reduce waste and recycle.
