

Matching + Sorting

In this lesson, children will identify similarities and differences among the Eco-bricks™ Plus Color construction blocks.

 0-30min  Small Group Activity  Pre-School

Teacher Support:

Key Objectives:

- Practice concepts of alike & different
- Practice matching, sequencing, identifying and predicting
- Develop fine motor skills
- Grasp concepts of up/down, big/small, more/less, etc.

Materials:

- [-Eco-bricks™ Plus Color 66 Piece Set](#)
- [-Inspiration Photo Example](#)
- [-Matching Worksheet](#)

Lesson Activity:

-Today's lesson is all about comparing and contrasting - where we identify objects that look the same and objects that look different and why. We will be sorting the Eco-bricks™ Plus Color construction blocks into different categories by size and color!

-Have the students match and sort the blocks by:

- Color
- Size (4 Dot or 8 Dot)

*Repeat with different rounds per category description

-Child will then complete the Matching + Sorting Worksheet.

*Early finisher activity - have the child create a tower using only a certain color of construction block or they can create a pattern (interchange two colors).
