

absolute night cream bioactive + science fusion

who am I?

Organic nation's Absolute Night cream is just that, Absolute. This intensely rich fusion of nut oils, native super fruits and scientifically designed peptides is truly an absolute experience for your skin. Designed to support night renewal, deep hydration and reduce the signs of ageing through the art of science.

Lavender Essential oil maintains the skin's calmness whilst providing a sensory experience that promotes sleep.

what are the benefits of using me?

- Intensely rich plant oils provide superior hydration
- Stem Cell Science: The regenerative action is due to the active ingredient Swertiamarin, extracted from Indian Gentian leaves.
- Science driven peptides reduce inflammation, improve hydration and skin suppleness

who can use me?

- created for normal, oily and dry skin types.
- can be used effectively on sensitive skin types with professional consultation.

how do you use me?

- Apply at night to face and neck for deep hydration and renewal.
- For sensitive skin patch test before use in conjunction with your professional Esthetician

what am I made from?

Certified Organic Ingredients 80%

Shea Butter: Shea Butter is extracted from the nut of the African Shea trees and is one of the most moisturizing and protecting natural products in the World! It protects your skin from UV sunlight, harsh climates, dehydration and pollution damages. Its precious constituents include complex fats, essential fatty acids (oleic, stearic, linoleic), vitamin E and D, provitamin A and allantoin. Legendary Egyptian Queen, Nefertiti, owed her beauty secrets to the wonders of shea butter.

Jjoba Oil: Extracted from the seeds of the Jjoba plant, which is native to areas in Northern America. Jjoba oil is known as the oil (wax) that mostly closely resembles human sebum, so the uses and benefits to skin are high. It helps reduce inflammation, kill bacteria, reduce acne breakouts and is wound healing. It is extremely nourishing to the skin and provides high levels of hydration.

Argan Oil: Argan oil is produced from the kernels of the Argan tree that is native to Morocco. This liquid gold of oils has been a secret of Berber women for centuries. It was known to keep the skin supple and soft even in a dry, semi-desert climate. It is a healing oil that is rich with vitamin A and vitamin E, Omega-6 fatty acids, and linoleic acid. Research shows that when applied to skin, it eases inflammation whilst maintaining hydration.

Macadamia Oil: Indigeonous to Australia Macadamia oil contains one of the highest sources of Palmitoleic acid. Palmitoleic is vital for delaying skin and premature ageing; as our skin ages it rapidly becomes depleted in this important fatty acid, which is why Macadamia is the perfect inclusion for mature skin types.

Soybean Oil: Soybean oil is full of fatty acids that are key in maintaining and restoring the health and the balance of the skin. Soybean oil is absolutely bursting with specific anti-oxidants that have been proven in maintaining skin health and that special glow. Anti-oxidants such as Vitamin E and Vitamin B complex are key to helping restore the radiance and the natural beauty of skin.

Indian Gentian Leaves: Inspired by the latest in stem cell science used in the treatment of burn injuries, Swertiamarin the active ingredient found in the Indian Gentian Leaf is capable of stimulating skin proliferation to self-regenerate thin epidermis and improve the look of ageing skin.

Acetyl hexapeptide-49: This peptide reduces inflammation and itching whilst restoring hydration, suppleness and softness. It regulates the activity of PAR 2 (proteinase-activated receptor) known to produce inflammation in the skin. It helps to regain balance and prevent inflammation. It provides an immediate soothing effect, 32%.

Acetyl Octapeptide-3: This peptide was created as a non-invasive option to Botulinum Toxin injections. (Botox). Deeper lines around the forehead, lips, eyes can be softened . This works by interrupting the muscle contractions and skin tensions caused by the neurotransmitter process SNARE complex . Wrinkles are caused by the repetitive motion that occurs through laughing, smiling, frowning. This peptide dims the lights on the muscle contractions thus softening them.

Lavender and Rose essential oils: Fresh, floral, calming and intoxicating. These oils have been chosen to calm and relax your skin and mind.
