

# How to add a Fake ID Check Credits 12/27/2024

Fake ID Checking is optional and is a add on

In general, ID Scanners do not detect fake IDs from a barcode scan. They detect if a person is over 21, and that ID is not expired. There are no added costs for basic ID scanning. The system includes software to find 90% plus of Fake ID's. 6 free fake scans are included. After that, the Fake ID module needs either "Pay as you go" for fake check credit purchase or an optional best value subscription to get monthly scan credits. Fake ID requires WIFI connection.
