6 Sample Intellicheck credits
Included**

Important Notes

Correct Drivers License Bar Code to Read

Sometimes there are several barcodes to read on Drivers license

This varies state to state. Please scan the **PDF417** barcode as shown below

Please line up the scan so the blue triangle / red line is at the center of the correct bar code

If necessary, cover the others with your thumb or finger to insure you are reading the correct barcode.

Fake ID

- With Fake ID on, out of the box the system will present questions, after a scan. You can pass / fail based on customer answers to these
- If you want something more definitive see page 11 about the intellicheck option. We can activate this for you to try. This finds 90% plus of fake IDs. Requires WIFI connection.

Disabled
Out of the box

**Intellicheck is
Activated with

Fake ID Checks Powered by

You can **upgrade** this system to include World Class ID checking with Intellicheck.

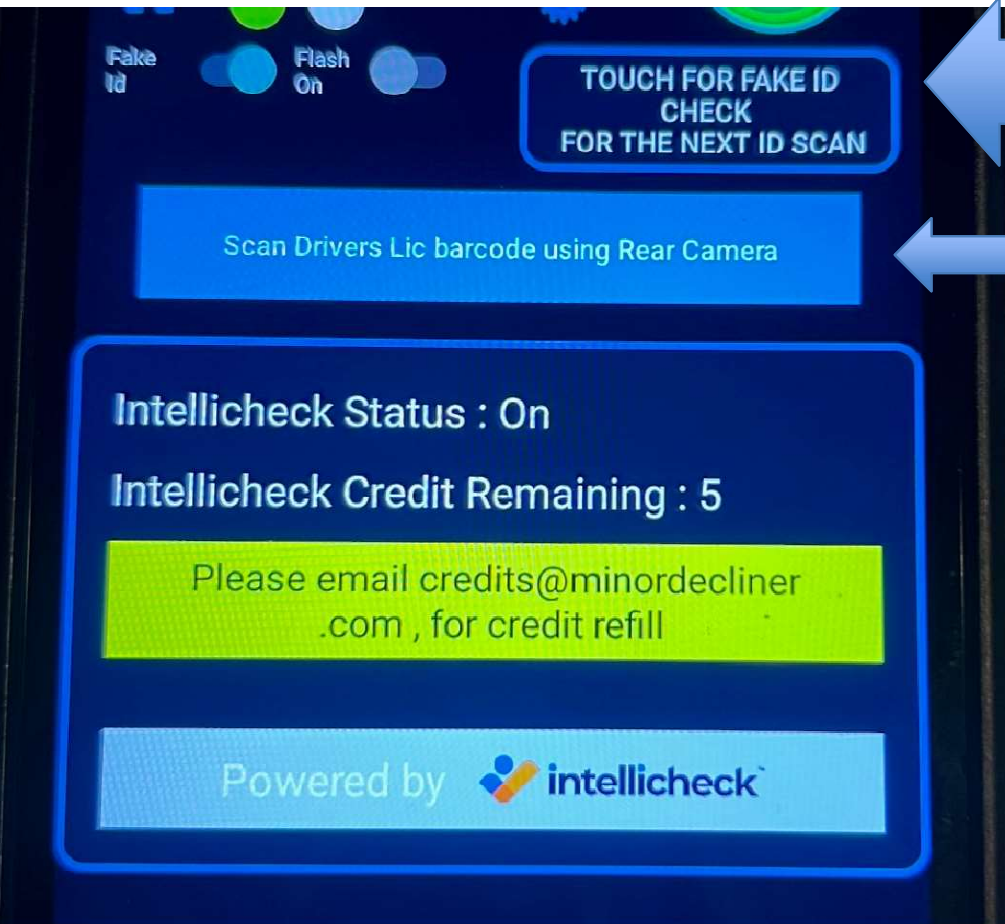

This is considered the gold standard in Fake ID detection and is used by Police Departments and large banks and financial institutions. Now you can have this “Police Grade” fake id checking machine in this easy-to-use handheld system. No **Fake ID detection** is perfect, but based on our testing and other studies, we feel the system will detect 90% of Fake ID’s.

If you are interested in learning more about this,
Email @ ron@minordecliner.com,
or call us at 888-310-4001

Note – requires WIFI connection and credit purchases
