Quick Start Guide - 6674- 720P Video Pen

Before operating make sure to charge the pen through the USB charger/PC for 9Hrs

How to Charge the Battery:

1. Connect the Hidden Camera to a PC or USB power supply
2. Initially charge the device for 9 hours to fully charge
3. After the initial charge, it will only need 4 hours to fully charge each time
4. Charging: Flashing GREEN & RED LED light
5. Fully Charged on PC: Will not indicate when fully charged
6. Fully Charged on USB charger: LED light will be OFF

How to Record a video file:

1. Insert a Micro SD card (max size is 32GB)
2. On the top of the pen is a silver Power button
3. Hold the Power button 3-5 seconds and a solid Green LED light will be visible
4. Hold the Power button for 1 second and the LED will disappear
5. Now a recording has begun
6. To stop the recording tap the Power button again and a solid Green LED light will appear putting the device in standby mode

How to Turn Off the device:

1. On the top of the pen is a silver Power button
2. While in record mode, or standby mode simply press and hold the power button for 3-5 seconds
3. A Green LED light will come on and will quickly blink 3 times and turn off
4. The device is now turned off

How to Review the Recordings: (Windows)

1. When the device is off plug the device into a PC/computer via the included USB cable
2. If a "Choose Action" pop up occurs, choose "Open to View Folder/Files"
3. If not then go to file explorer on a Windows or Finder on a Mac and find the device
4. Double click on any of the folders: PHOTO, RECORD, or VIDEO
5. Double click the file to Open and Play

How to Review the Recordings: (Mac)

1. When the device is off plug the device into a Mac/computer via the included USB cable
2. On your desktop a new folder will be present representing the connected device
3. Double click on that folder to access the files
4. Double click on any of the folders: PHOTO, RECORD, or VIDEO
5. Double click the file to Open and Play

How to Setup the Time and Date Stamp: (Windows)

1. When the device is off plug the device into a PC/computer via the included USB cable
2. If a "Choose Action" pop up occurs, choose open to view files
3. If not then go to file explorer on a Windows or Finder on a Mac and find the device
4. In the Root folder will be a file named "TIME"
5. Double click the time file
6. In the text document (Notepad) we can enter or adjust our time stamp (April 13th 2016, 2:30pm and 00 seconds) YEAR/MONTH/DAY/ HOUR/MINUTES and SECONDS. Should look like this for the layout ... 2016-04-13 14:30:00
7. Once this is entered you will go to the top left corner and select "File" then go to "Save" and save the file as "time" to update the time stamp, make sure the file type is set to text document
8. Unplug the unit from your computer and make a brief recording just to make sure the Time & Date was saved accurately
9. Plug the device back into the PC and review the recordings

Monday - Saturday 10AM to 6PM CST

How to Delete the files on a PC:

1. Open the PHOTO, AUDIO, VIDEO folder depending on file type
2. Right click on the file you wish to delete and select Delete
3. Files can only be deleted through a PC or Mac

How to Delete the files on a Mac

1. Open the PHOTO, AUDIO, VIDEO folder
2. Right click on the file you wish to delete and select Delete
3. While the device is still plugged into the Mac go to your trash folder and empty trash.

Note: If the above step is not completed the files will not be fully deleted from the device and you will have a phantom folder that will contain the deleted files that can only be seen by a Windows Computer

NOTE: If a folder does not automatically open when connected to PC, disconnect the device and preform the following:

1. Open Control Panel by typing "control panel" in the Search bar
2. Select Programs
3. Under Default Programs, Click "Change default settings for media or devices"
4. Under Removable Devices, select "Open folder to view files"
5. Save
6. Reconnect the device to the PC
