How to Delete the files on a MAC:

Open the DCIM folder

Click and DRAG the file you wish to delete to the Trash Bin

Empty the Trash Bin to permanently delete the file from the device.

Note: If the above step is not completed the files will not be fully deleted from the device and you will have a phantom folder that will contain the deleted files that can only be seen by a Windows Computer

How to download and use VLC media (Windows)

www.videolan.org

Click the Blue "download VLC"

It will open a new window and begin downloading

If it does not automatically begin downloading, press the Click here and select one of the mirrored sites

Once downloading has completed select Run and install

Once finished a VLC icon will now be available on your PC

To default open a file in VLC media player, right click on the file you wish to open and select "open with" and choose VLC

To change all files to default open with VLC media player: Right click and choose properties then click on the "Change" button next to "open with" and change it to VLC and press OK. Now the files will default open with VLC

How to download VLC media (Mac)

www.videolan.org

Click the Blue "download VLC"

It will open a new window and begin downloading

If it does not automatically begin downloading, press the Click here and select one of the mirrored sites

Once completed a new file named VLC will be visible on the desktop

Open the folder and in the folder move the VLC to the applications folder by drag and drop

Once in the application folder the VLC player will complete the installation

Open VLC media player in the Applications folder and simply drag your video files to the "drag here" dialog box to open and play

If the VLC player is not installing a change to the Security and privacy settings is needed

To access your Security and Privacy click on the Apple Icon on the task bar and select "system preferences"

Select "security and privacy"

Make sure the Lock icon on the bottom of the screen is open and set to Make Changes

Select the button "Open Anyways"

VLC will now fully install
