

Longs Peak Rosin Press | \$7,400

- 10" x 3" Plates + Dual Pressure Control
 - 100% 6061 aircraft-grade aluminum heat plate assemblies with premium heat rods
- Based on our award-winning Pikes Peak, with a full LCD touch screen, enhanced electronics, and offering **60% more pressure**
- Easy to use, full color LCD touch screen for complete control
- Save up to 30 pre-set recipes with multiple pressure stages
- Premium quality components backed by industry-leading customer service
 - Engineered for long term durability and reliability, the Longs Peak is truly built to last. For more information on our warranty, visit please our website.

8 Tons of Force

Pneumatic, oil-less & maintenance-free cylinder

Save Up to 30 Pre-Set Recipes

Touchscreen LCD Technology + Enhanced Electronics

Built in Colorado

Additional Details

Training & Proficiency

Every Longs Peak rosin press comes with a full detailed manual and most users reach full proficiency in using the press within a few hours or less. We'll work with every customer to offer up suggestions and tips on where we've seen the best results so you can get the most out of your press immediately.

Shipping Included

The cost of shipping is included with each Longs Peak press purchase to the lower 48 states, via freight which is fully insured. For shipping to Alaska, Hawaii, and international destinations, please contact us for an accurate quote.

Air Compressor & Accessories

An air compressor is required to use the Longs Peak rosin press. PurePressure recommends an air compressor that can reach at least 145 PSI, has a tank size of 30 gallons or more, and can output at least 2.1 CFM. We also sell top quality air compressors, so contact us to help you find the perfect fit for your operation, even if it isn't from us.

ROI & Pricing

With the Longs Peak rosin press, a single operator can process nearly **7 lb of flower per day, or 12 lb+ of dry sift or hash.**

Note: these yield figures are variable and are dependent largely on the quality of the materials used.

*These estimates are based on our lab tests involving a single operator at a streamlined work station.

	Equipment Cost	Approximate Processing Capacity per Press	Cycle Run Time (minutes) *prep, press, harvest	Runs/Day (8hrs)	Raw Material Processed per Day (LB/day) (Flower / Kief & Hash)	Quality of Flower	Average Yield (%)	Average Yield per Press (g)	Average Yield per Day (g/day)	Raw Material Cost per Day
Longs Peak	\$7,400	35	6	80	6.17	High	25%	8.75	700	\$11,111
		70			12	Mid	15%	5.25	420	\$8,642
		Kief / Hash			Kief / Hash	Low	10%	3.5	280	\$6,173
Small buds, trim sifted kief, non-full melt bubble hash, or virtually any starting material can be profitably pressed into rosin.						Dry Sift or Bubble Hash	Average Yield (%)	Average Yield per Press (g)	Average Yield per Day (g/day)	Raw Material Cost per Day
Pro Tip: High Quality = High Yield						High	60%	42	3360	\$67,717
						Mid	45%	31.5	2520	\$45,149
						Low	30%	21	1680	\$33,334

Operational Costs

Operational Costs				Average Material Costs	
Days Between Servicing	1,825+	Rosin bag + parchment sheet cost/press	\$2.50	High quality flower/lb	\$1,800
Electrical Use per Hour (kW/h)	1.122	Electricity kW/h cost	\$0.10	Medium quality flower/lb	\$1,400
Cost of Labor per Day	\$128	Labor rate/hour	\$15	Low quality flower/lb	\$1,000
Rosin bags and Parchment Cost per Day	\$200.00			High quality dry sift / bubble hash/lb	\$5,485
Total Daily Operational Cost	\$327.61			Medium quality dry sift / bubble hash/lb	\$3,657
Material Costs	(1 lb = 453.592 grams)			Low quality dry sift / bubble hash/lb	\$2,700

ROI is Determined by the Desired Final Product

Product Input	Wholesale Rosin				Retail Rosin			
	Price/Gram	\$25			Price/Gram	\$50		
	Daily Yield (g/day)	Revenue Earned (\$/day)	Profit (\$/day)	ROI (days)	Daily Yield (g/day)	Revenue Earned (\$/day)	Profit (\$/day)	ROI (days)
High Quality Flower	700	\$17,500	\$6,061	1.2	700	\$35,000	\$23,561	0.3
Medium Quality Flower	420	\$10,500	\$1,530	5	420	\$21,000	\$12,030	0.6
Low Quality Flower	280	\$7,000	\$499	14.8	280	\$14,000	\$7,499	1.0
High Quality Dry Sift / Bubble Hash	3360	\$84,000	\$15,955	0.5	3360	\$168,000	\$99,955	0.1
Medium Quality Dry Sift / Bubble Hash	2520	\$63,000	\$17,523	0.4	2520	\$126,000	\$80,523	0.1
Low Quality Dry Sift / Bubble Hash	1680	\$42,000	\$8,338	0.9	1680	\$84,000	\$50,338	0.1
