

Declaration of FDA Compliance

Rosin Bags

Included Products

Nylon Rosin Bags sewn with Polyester Thread
Micron Sizes offered: 15µm, 25µm, 36µm, 72µm, 90µm, 115µm, and 160µm.

Statement

This product is intended for heat pressure filtration $\leq 300^{\circ}\text{F}$. PurePressure recommends that the filtration bag be retired after a single use. PurePressure recommends, after heat pressure filtration, to remove the filter bag before pursuing any post processing methods of the heat pressed biomass.

Materials

PurePressure declares that the nylon filter mesh from which we manufacture our filtration products comply with the FDA Code of Federal Regulation for materials under Title 21, Part 177.1500, Subpart B - Substances for use as basic components of single and repeated use food contact surfaces. Examinations carried out by an independent testing laboratory show that these product lines meet the requirements of 21 CFR 177.1500.

PurePressure declares that the polyester thread from which we manufacture our filtration products comply with the FDA Code of Federal Regulation for materials under Title 21, Part 177.2420 & Title 21, Part 177.2600, Subpart C - Substances for use only as components of articles intended for repeated use. Examinations of both claims were carried out by independent laboratories that show these product lines meet the testing requirements of 21 CFR 177.2420 & 177.2600.

Disclaimers

In accordance to GMP the food contact articles shall be thoroughly cleaned prior their first use in contact with food. Clean with cold water only, fully air dry before use.

It is the responsibility of the processor to ensure that the article is suitable for the intended purpose.
