THE FINEST ALL-NATURAL CHICKEN — PURE AND SIMPLE.

- ✓ Responsibly sourced from a network of trusted producers
- ✓ Raised free-roaming in barns on small family farms in the United States
- ✓ Hand-cut and hand-sized for accuracy and consistency
- ✓ Available in a wide range of packaging configurations for foodservice and retail use

WWW.JOYCE-FARMS.COM

RESPONSIBLE SOURCING

Carefully sourced from producers that meet our strict all-natural requirements, Joyce Farms Naked Chicken always comes from birds raised with nothing added, ever — that means no antibiotics, growth stimulants, added hormones, preservatives, or any other artificial ingredients.

NO ANTIBIOTICS

NO GROWTH STIMULANTS

NO ARTIFICIAL INGREDIENTS

SUPERIOR PROCESSING

Our Naked Chicken is hand-cut for consistent sizing and superior taste and texture. Each piece is inspected before packaging at our USDA-inspected and BRC Certified plant. Our skilled employees and professional butchers can offer unique cuts and specialty fabrications exclusive to Joyce Farms, many of which our chef customers have relied on for years.

PREMIUM PACKAGING

Naked Chicken is available in a variety of packaging configurations for foodservice, wholesale, and retail. Most items are conveniently packaged in small units, rather than 40 or 60 pound bulk boxes. Our packaging technologies include high quality vacuum shrink bags, controlled vacuum packaging (CVP), and thermoforming. Unlike the wax-coated boxes that are often used in the poultry industry, our boxes are 100% recyclable.
