Artist Profile

Helen Norton's art is an unashamed commentary on the life and history of the North West of Western Australia. From animals to the people of the North, both Black and White, Helen's unique appreciation, after 17 years in "the bush" is vibrant, savage and often full of humour. Her empathy and deep understanding of relations between Black and White Australians, her love of the Kimberley and her optimism provide the landscape for a prolific and sensitive narrative, which seems unending.
