MAXIMUM DIGESTIVE COMFORT AND FOOD FREEDOM

Have you ever dealt with a bloated or upset stomach? It may be because your body is low on enzymes. As you age, your body's enzymatic production starts to drop and digestive issues increase. Silver Fern's high potency digestive enzymes are specially formulated to ensure that your body can break down those difficult-digest meals. You may find your favorite foods, that you couldn't stomach before, will be back on the menu.

ULTIMATE FOOD DIGESTION = SILVER FERN™ DIGESTIVE ENZYMES

Ultimate Digestive Enzymes are **3x stronger** than common enzymes and provide 100% intestinal coverage with complete protein digestion.

WHY YOU NEED DIGESTIVE ENZYMES:

- 1) In our late 20's the number of enzymes we produce starts to drop, and by age 30 we can become quite deficient in digestive enzymes.
- 2) As your enzyme levels drop, digestion is replaced with bloating and discomfort.
- 3) Your body does not naturally produce the enzyme needed to digest plant-based foods.
- 4) Proper digestion of food unlocks vital nutrients for your body and keeps you from overeating.

HOW DOES SILVER FERN BRAND DIGESTIVE ENZYME COMPARE?

	Ultimate High Potency Digestive Enzyme	Other Digestive Enzymes
Maximum Help with Bloating & Upset Stomachs	✓	
100% Intestinal pH Coverage	✓	
Maximum Potency and Nutrient Absorption	✓	
Absorbs Protein through Entire Digestive Tract	✓	

BENEFITS OF SILVER FERN™ BRAND ULTIMATE DIGESTIVE ENZYME

BEFORE DIGESTION BY ENZYMES

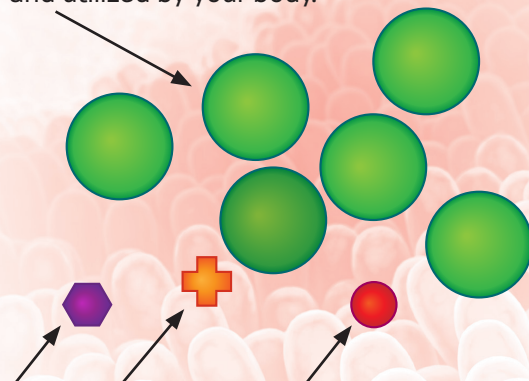

Macroparticles that are too big to be absorbed and utilized by your body.

Nutrient locked within the food structure that can't be absorbed by your body.

AFTER DIGESTION BY ENZYMES

Liberated macronutrients including proteins, carbohydrates, and fats can now be absorbed and utilized by your body.

Micronutrients (vitamins, minerals, antioxidants) are now released and ready to be absorbed.

WHY SILVER FERN™ ULTIMATE DIGESTIVE ENZYME?

- 1) **POTENCY** – The effectiveness of a digestive enzyme is measured by its enzyme activity or potency. The higher the potency, the more efficient the enzyme will be at breaking down food for digestion. A large amount of low potency enzymes will never perform as well as a small amount of high potency enzymes. The Silver Fern™ Ultimate Digestive Enzyme will maximize your digestive comfort because it is one of the highest potency you can find.
- 2) **SPECTRUM** – Most enzyme products fail to work through the entire 20-foot length of your intestines because of the wide pH spectrum. Your intestinal pH varies between a massive logarithmic scale of 1.0 to 8.0 through its length, and most enzymes only function within a small pH range. Silver Fern's enzyme blend functions in all the pH regions of your small intestines and ensures improved digestion throughout your entire digestive tract.

Finding an enzyme that is both high potency and a full spectrum is key to achieving digestive comfort. Silver Fern™ Digestive Enzymes are specially formulated to guarantee the best digestion possible throughout your entire digestive tract. Get yours today and enjoy food freedom again!
