

COMENZA HANDRAIL **led profile** by Luz Negra

Our PROFESSIONAL led profile series for handrails, manufactured in stainless steel is supplied along with its components, on request. This profile allows us to incorporate led lighting, using our Versalles led profile (recommended option) or our Philadelphia led profile.

We also offer a wide range of accessories such as wall supports, joints, end caps and open/closed elbow joints.

This steel profile is available in 5m lengths, which allows us to carry out long installations. Suitable for led strips with a maximum width of 12mm and a power not greater than 20W/m. In order to obtain a more homogeneous illumination, we recommend using our opal cover along with our ecoled strips, Canovelles-Barcelona-Gomera-COB.

We offer a 2 year guarantee.

Scale 1:1

Thickness: 1.5mm (0.059")

Stainless steel profile 5m
LED-12.008 polished
LED-12.019 satin finish

Corner connector
LED-22.026 polished
LED-22.108 satin finish

Wall support stainless steel
LED-22.027 polished
LED-22.109 satin finish

Joint stainless steel
LED-22.030 polished
LED-22.112 satin finish

Adjustable connector 55° / 20° stainless steel
LED-22.029 polished
LED-22.111 satin finish

Adjustable connector stainless steel
LED-22.028 polished
LED-22.110 satin finish

Closing endcap stainless steel
LED-19.152 polished
LED-22.113 satin finish

Regulations: Technical Building Code TBC by Applus
Handrail diameter: Ø 42mm / AISI 316 Stainless steel - resistant to corrosion and high temperatures
