

Model Linea20

0.9" Ceiling LED Strip Channel

- More than 20 accessories available
- Channel sections are assembled with extra clamps
- Angled connectors can be illuminated
- continuous light line (with 120 LEDs/m LED strip and opal cover applied)
- maximum LED source width: 20 mm

* Parameters tolerance +/- 7%

- E** slide cover
- F** click cover
- E7** E7 click cover
- Y¹** Y flexible mounting plate
- Y²** cone Y flexible mounting plate
- T** T mounting plate

Max LED strip width 20 mm

SLING FOR LED MOUNTING 1500

Compatible with flexible mounting plates, allows fast and easy assembly of the luminaire. Possibility of direct mounting to the profile.

SELV SLING 50 V 1500

It provides a minimalistic look – no additional wires required.

Using FIX16 profile creates an aesthetic, closed from the top, luminaire.

ANGULAR CONNECTORS

Thanks to five different angle connectors (60° / 90° / 120° / 135° / 180°) it is possible to create many various Lighting systems – with no need to cut the profile at an angle.

Bent connectors allows to connect profiles in two planes, at two angles: 90° on the inside and 270° on the outside.

The component made of clear fabric provides secure connection, letting light through at the same time. Thanks to that, the luminaire can illuminate on the entire surface of the cover in the corners.

* Parameters tolerance +/- 7%
