

Paco by Luz Negra

Our PROFESSIONAL led profile series for surface/hanging applications is manufactured in high purity aluminium, with 8 different colours to choose from.

The profile has an elegant hexagonal shape which can be rotated to achieve the desired lighting effect. Its inner tray (where we can find the led and power supply) can be removed from the front which means easy maintenance.

This profile can be combined with microprism covers both in transparent and frosted ("easy-ON" System), which improve glare and UGR levels.

We offer a 10 year guarantee on the profiles and 4 year guarantee on the covers.
