Platinum Cured Silicone Rubber 60 shore

HARDNESS: 60° IRHD

TENSILE MPa: 10 N/mm²

TEAR STRENGTH: 33 N/mm

ELONGATION: 450%

COMPRESSION SET: 25%

BRITTLE POINT: -70°C

MAX WORKING TEMP: 180°C

BS 6920 The above material is a WRC Approved Product, listed by the Water Byelaws Scheme (Entry Number 9905528) for use with cold water and hot water up to 85°C (Audit Test Report F24411,24412,24413,24414 & MA2415/V)

The material also complies with FDA Regulations 21 CFR 177.2600

These figures are typical properties and are intended as a guide.
