RKA RUGGED 60L SADDLEBAGS

INSTRUCTIONS

We strongly recommend you visit our website at www.AdaptivTech.com and view the videos on the features of RKA products.

- Secure the Pad to the rear seat of your motorcycle. Be sure to loop the straps under the seat.
- Affix the Left Seat Flap ① on top of the Pad, then affix the Right Seat Flap ② on top of the Left Seat Flap.
- Affix the Straps through its closed end loop to non-movable points such as the frame or the foot peg bracket on each side of the motorcycle and connect to the Front Straps ③.
- Connect the Rear Straps together. If there is something that lets you loop it around, such as a license plate bracket, do so.
- This set of Saddlebags is part of the modular system with the RKA 30L MC Duffel Bag (sold separately).
- To use the Saddlebag Liner:
 - Unhook the hook and loop panels in the inner bottom of the Saddlebag.
 - Gently “fold” the Liner in half to form an “U” (it ships “folded”) and insert it into the Saddlebag with the open side of the “U” going in first.
 - Flip the Liner inside the bag so the “U” is right side up.
 - Insert one top edge of the Liner into the Inner Lip on one inner side of the Saddlebag.
 - Insert the other top edge of the Liner into the Inner Lip on the other inner side of the Saddlebag. Note that there will be a “bend” in the Liner.
 - Gently massage out the “bend” in the Liner so that it forms an “U” shape back to line the bottom of the Saddlebag. Be sure to keep the two edges of the Liner in the Inner Lips on both sides while doing this.
- Make sure the Saddlebags have at least two inches of clearance from the exhaust pipes.
- Make sure the Saddlebags will not interfere with the operation of your motorcycle.
- Hand wash with a mild detergent.
- Hang dry. **DO NOT** dry the bag in a dryer. Doing so will void the warranty.
- **ADAPTIV TECHNOLOGIES IS NOT RESPONSIBLE FOR ANY DAMAGE OR INJURY CAUSED BY IMPROPER USE OF THIS BAG.**

The **RKA RUGGED 60L SADDLEBAGS** has a **LIMITED LIFETIME WARRANTY** for the original owner and a 30 day money back guarantee if not satisfied. This limited lifetime warranty does not cover hook and loop, buckles, UV damage, crash damage, modifications, faulty installation, and improper use of this item. To initiate a return or warranty claim, you must contact us first to receive a Return Merchandize Authorization (RMA) number. Original shipping costs are non-refundable and return shipping costs are the responsibility of customer.
